The purpose of this project is to utilize a diverse suite of native plants to restore 20 acres of riparian woodland to the north bank of Ulatis Creek, thereby improving the ecological function of the area for the benefit of native plant and wildlife species. The project will result in the installation of 1,880 native trees and shrubs, 25,000 native forb and sedge plugs and 100 pounds of native wildflower seed, while several species of invasive weeds will be controlled throughout the site.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".  
If you have already sent your document to the agency please denote that with an "S".
