At this time, the City would like to request that all of the documents attached for this project by our environmental consultant, including the main Supplemental Environmental Impact Report (EIR) and all technical reports, be posted on the website as part of this review as those documents are relevant and is part of the materials that all interested parties and reviewing agencies would need to review. Without the full materials, the review request to interested parties and reviewing agencies would be incomplete.

Best regards,
Thai-Chau Le
