Project Description: The project is needed to stabilize the slope along the north side of Park Drive, and to mitigate surface (surficial slaking, sloughing, and erosion) and deeper-seated instability. To address public safety and coastal access issues associated with the failing hillside, the City proposes to remove an existing retaining wall, install a new retaining wall, repair portions of the failing slope, and revegetate the project area with native plants. All project improvements would be within the City's right of way and within easement areas.

This is to advise that the City of Carlsbad has approved the above-described project on March 30, 2022, and has made the following determination regarding the above described project.

1. The project **will not** have a significant effect on the environment.
2. An Environmental Impact Report (EIR) was prepared for this project pursuant to the provisions of CEQA.
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
 This project was reviewed previously and a(n) EIR/Negative Declaration was prepared pursuant to the provisions of CEQA.
3. Mitigation measures **were** made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan **was** adopted for this project.
5. A statement of Overriding Considerations **was not** adopted for this project.
6. Findings **were** made pursuant to the provisions of CEQA.

This is to certify that the final **Negative Declaration** with comments and responses and record of project approval is available to the General Public at THE CITY OF CARLSBAD.
