Project Title: Buckman Road Bridge Replacement Project, San Joaquin County

Project Applicant: San Joaquin County Public Works

Project Location (include county): 0.2 miles north of State Route 4 across Duck Creek, unincorporated San Joaquin County.

Project Description: The Project is on the Farmington CA USGS 7.5' Quadrangle

The project proposes to replace the existing two-lane timber structure with a cast-in-place, pre-stressed single-span concrete voided-slab bridge. The proposed bridge will consist of two 9-foot-wide lanes, 2-foot paved shoulders, and will include 1.75-foot-high Type 836 barrier rail on both sides. From the end of the bridge, the County will transition the paved 22-foot clear width to match the existing 18-foot roadway within the attainable 400-feet or less on both sides. Work will also include the construction of approach railing with terminal systems, and appropriate approach road work at the ends of the bridge.
