Project Title: Variance TWW-2021-LG-00688 to Allow the Generation, Accumulation, and Transport of Treated Wood Waste under Alternate Procedures by C&H Sugar Company, Inc.

Project Location: 830 Loring Avenue, Crockett, CA 94525

County: Contra Costa County

Project Applicant: Tanya Akkerman, Environmental Manager, C&H Sugar Company, Inc.

Approval Action Under Consideration by DTSC: Variance

Statutory/Regulatory Authority: California Health and Safety Code, Section 25143; CCR Title 22, Section 66260.210

Project Description: The Department of Toxic Substances Control (DTSC) has issued a variance to C&H Sugar Company, Inc. (CAD009134503) to generate and accumulate treated wood waste on-site. The treated wood waste is generated by the maintenance of waterfront fender pilings and under dock piling, including removal and repair activities. The variance allows treated wood waste to be managed under procedures different from, but equally protective to human health and the environment to, the provisions of California Health and Safety Code (HSC) Articles 6, 6.5 and 9 of Chapter 6.5 and California Code of Regulations (CCR), Title 22, Division 4.5, Chapters 12, 13, 14, 15, 16, 18, and/or 20. Under the terms and conditions of Variance TWW-2021-LG-00688, C&H Sugar Company, Inc. will ensure the treated wood waste will be appropriately managed.

Background: Treated wood waste is a fully regulated California-only hazardous waste because it exhibits the hazardous waste characteristic of toxicity. From 2007 to December 31, 2020, treated wood waste was managed under alternative management standards, established in 22 CCR 67386. The legislation that authorized the alternative management standards for treated wood waste expired on December 31, 2020.

C&H Sugar Company, Inc. is a sugar refinery.

Project Activities: Under the variance, the authorized large quantity generator may generate and accumulate treated wood waste on-site. Accumulation of treated wood waste includes taking appropriate precautions to prevent unauthorized access to and prevent leaching to the environment of the treated wood waste. No transportation activities are authorized as a part of this variance. The variance will expire on January 31, 2022 with possibility of extension for an additional six months.

Name of Public Agency Approving Project: Department of Toxic Substances Control

Name of Person or Agency Carrying Out Project: C&H Sugar Company, Inc.

Exempt Status: Replacement and Reconstruction [CCR Title 14, Sec. 15302]

Reasons Why Project is Exempt: All analysis conducted included the potential extension of the variance for an additional six months. DTSC has determined none of the exceptions to the categorical exemptions apply to this project, as described in Public Resources Code Section 21084(c), (d), and (e), and 14 CCR Section 15300.2. This project consists of the replacement or reconstruction of existing structures and facilities will have substantially the same purpose and capacity as the structure replaced. The approval of this variance will ensure that this treated wood waste generated by the project will be contained from release during accumulation and storage before it can be transported to an authorized site or disposal facility.

The administrative record for this project is available to the public by appointment at the following location:
