Present Land Use/Zoning/General Plan Designation:

Project Description: (please use a separate page if necessary)

The Housing Element is a required component of the City's General Plan and must be updated on a regular basis, as set forth in Government Code Section 65588. The Housing Element consists of these components, as required by Government Code Section 65583, 1) housing needs, 2) constraints to housing development, 3) housing resources (available sites and funding sources), and 4) a Housing Plan.

The 2021-2029 Housing Element applies to all properties within the City of Lancaster on which existing General Plan land use designations and zoning allow residential and/or mixed-use development. The Housing Element does not specifically authorize the construction of any housing development nor does it indicate where and when specific housing projects would occur. The Housing Element is a policy document setting forth the City's plan to accommodate its share of regional housing needs, as determined by the Southern California Association of Governments (SCAG). For the 2021-2029 planning period, the City of Lancaster's share is 9,023 housing units. This allocation is referred to as the Regional Housing Needs Assessment, or RHNA.

In conjunction with this Housing Element update, the City is also undertaking an update to the Safety Element to align it with the recently adopted Local Hazard Mitigation Plan and adopt climate adaptation strategies, an Environmental Justice Element to comply with SB 1000 and SB 244, and a zone text amendment to introduce a new overlay to the High Density Residential (HDR) zone and commercial zones where high-density residential is allowed in order to facilitate additional housing opportunities.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
