NOTICE OF AVAILABILITY FOR REVIEW and NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION

Pursuant to Section 15072 of CEQA (California Environmental Quality Act) Statutes and Guidelines, notice is given that a proposed Mitigated Negative Declaration has been prepared for the project. This certifies that Mendocino County Department of Transportation has determined that no significant environmental impacts are anticipated to be associated with the project, or that implementation of feasible mitigation measures would either avoid or reduce impacts to a less-than-significant level:

Project Title: Lambert Lane Bridge at Robinson Creek Replacement Project

Project Description: The Mendocino County Department of Transportation (MDOT) proposes to replace the existing Robinson Creek Bridge on Lambert Lane, approximately 400 feet west of State Route (SR) 128. The existing structure is 32 feet long and 26 feet wide reinforced concrete bridge with closed strutted abutments founded on spread footings on erodible alluvial material. The replacement bridge will have 9-foot lanes and 5-foot shoulders in each direction resulting in a wider structure which meets safety standards. In addition to the bridge replacement, portions of the stream channel upstream and downstream of the bridge will be stabilized. Construction is expected to begin in summer 2022.

Project location: The Project is located in the Town of Boonville, California on the western side of State Route 128 in the Anderson Valley Region on Lambert Lane at the crossing of Robinson Creek.
