Present Land Use/Zoning/General Plan Designation:

Includes entire City: single family, multi family, commercial, mixed use, parks, public and quasi-public uses and zones.

Project Description: (please use a separate page if necessary)

The City of Beverly Hills 2021-2029 Housing Element Update contains an analysis of the housing needs of all economic segments of the community, including persons with special needs, as well as goals, policies, programs and objectives to address those needs. The location is the entire City of Beverly Hills. Some of the programs contained in the Housing Plan would not cause physical changes in the environment. Such programs include those intended to reduce the cost of housing through techniques such as rent stabilization, the preservation of affordability covenants, or reducing development cost by minimizing fees or streamlining the development review process. Other programs are intended to facilitate the preservation, maintenance and improvement of existing housing. The remaining programs are those that could cause physical change to the environment, such as those that would address existing barriers to the construction of housing and could induce the physical construction of new housing in the City.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
