Project Description

The California Department of Transportation (Caltrans) proposes replacing two (2) culverts on State Route (SR) 49 in Amador County, at postmiles (PM) 16.83 and 19.98. The scope of work at PM 16.83 includes replacing the existing 18-inch Corrugated Metal Pipe (CMP) culvert with a 24-inch Reinforced Concrete Pipe (RCP). The scope of work at PM 19.98 includes replacing the existing 24-inch CMP culvert with a 30-inch RCP. All work will occur within existing Caltrans Right of Way. The purpose of this project is to correct the damaged and failing culverts, which threaten the functionality of SR-49. The project is needed to ensure motorist safety over these drainages.

Continuation sheet:

General –

- Environmental reevaluation will be required if the scope of the project changes to include additional areas or activities, or if previously unknown cultural or other sensitive resources are discovered. Contact Environmental Office if project changes occur or sensitive resources discovered.

Cultural –

- If cultural resources are discovered at the job site, do not disturb the resources and immediately:
 1. Stop all work within a 60-foot radius of the discovery
 2. Protect the discovery area
 3. Notify the EngineerThe Department investigates. Do not move cultural materials or take them from the job site. Retain a qualified archeologist to assess the significance of the find. Do not resume work within the discovery area until authorized.
