Subject: EIR Response - SCH #2021090339

Mr. Pappani, good morning.

Your firm, Raney Planning & Management, Inc., is consulting the Town of Truckee, CA, regarding the Estates Meadows Project and listed as the contact for the Town for the review of the environmental impact document. The California Highway Patrol's Truckee Area has completed their review of the environmental impact document related to the Estates Meadows Project (SCH#2021090339). As is the case with any large scale construction project in close proximity to a State Highway (SR-267 in this case), there will be a potential impact to CHP operations with response times through the construction area due to an increase in related traffic. However, there is nothing in the project description that stands out as impacting traffic safety, congestion, or public safety beyond the traffic delays typically expected for such a project. Truckee Area requests all anticipated significant traffic delays be communicated to our office, which will allow us to maintain our ability to provide the highest level of safety, service, and security to the public.

Please let me know if you have any questions.

Thank you, Erik

Erik Egide
Commander
Truckee Area
