Reasons why project is exempt:

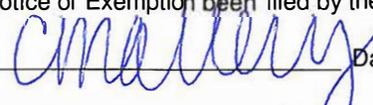

Section 15314 of the California Environmental Quality Act (CEQA) Guidelines, Minor Additions to Schools, allows for minor additions to schools within school grounds where the addition does not increase student capacity by more than 25% or ten classrooms, whichever is less. The proposed improvements to the existing Stocklmeir campus facilities are relatively minor, does not add classrooms and would occur within school grounds. The Stocklmeir campus currently contains 60 classrooms; therefore, the proposed modernization of the project would not increase student capacity by more than 25% or ten classrooms. For these reasons, the project is exempt under Section 15314, Minor Additions to Schools, of the CEQA Guidelines.
