NOTICE OF DETERMINATION ATTACHMENT A

RESERVOIRS 4711-3 AND 4711-4 PROJECT

Project Description

The proposed Project includes the construction of two 1,000,000-gallon (1MG) aboveground welded-steel tanks (Reservoirs 4711-3 and 4711-4), followed by the demolition of the two existing 100,000-gallon aboveground bolted-steel tanks (Reservoirs 4711-1 and 4711-2), which were originally constructed in 1993 and 1999. The construction of the proposed Reservoirs 4711-3 and 4711-4 would include the following components:

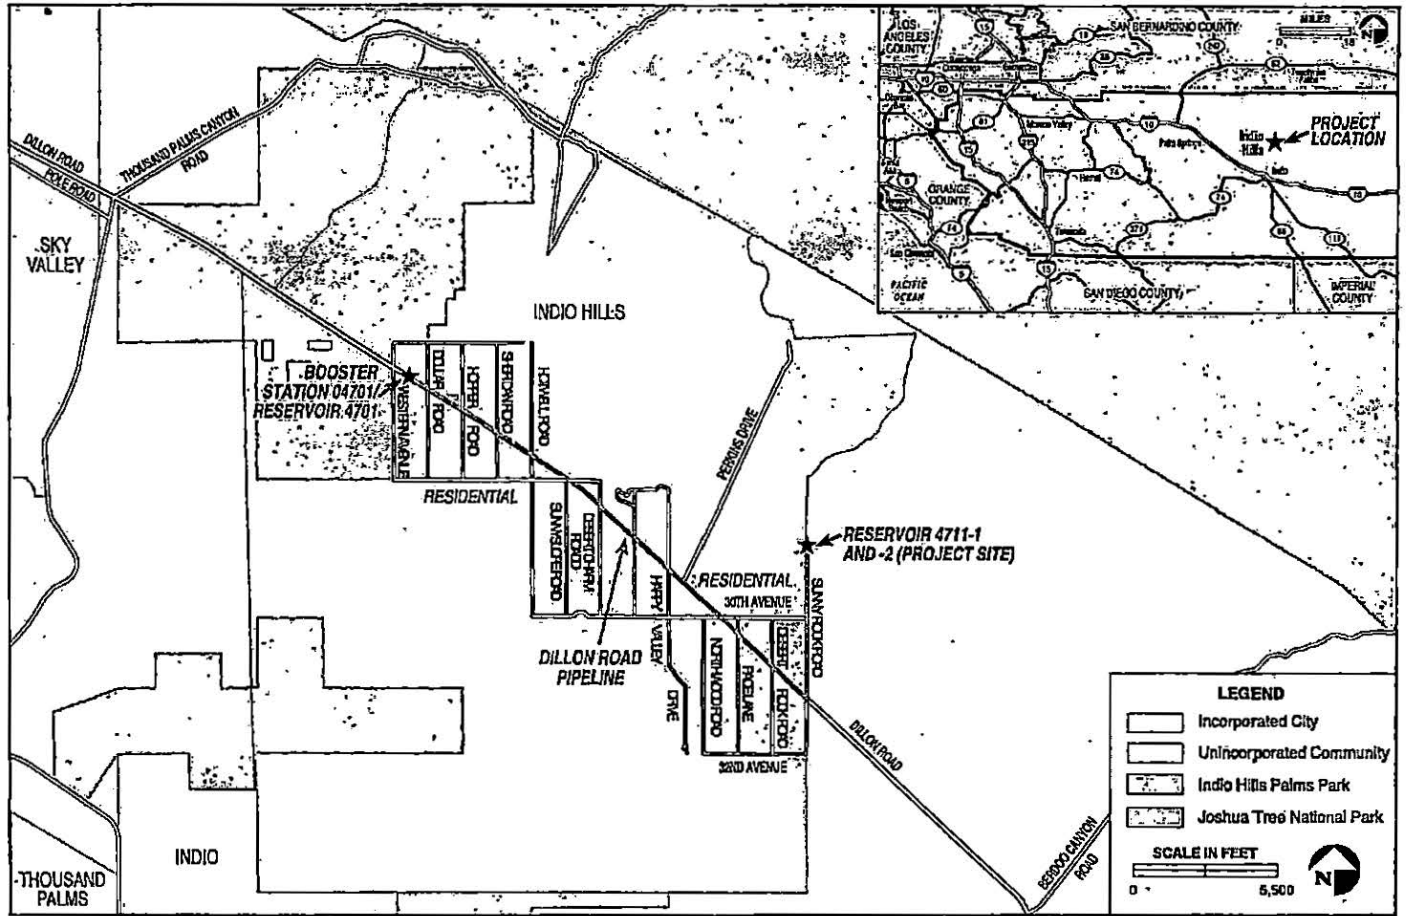

- Excavation, grading, soil compaction, and construction of two 76-foot diameter by 5-foot deep foundations;
- Construction of two 1MG welded-steel tanks;
- Construction of all required aboveground and buried appurtenances (e.g., water meters, valves, 18-inch diameter connection to the existing Dillon Road Transmission Pipeline, etc.); and
- Construction of all required infrastructure (e.g., riprap revetment north/upstream of the new reservoirs, perimeter chain-link fence, etc.).

Following the construction and initial operation of proposed Reservoirs 4711-3 and 4711-4, the two existing bolted-steel tanks (Reservoirs 4711-1 and 4711-2) and associated appurtenances and infrastructure would be demolished and removed from the Project site. This demolition would include the removal of existing aboveground meters, valves, and pipelines as well as the existing riprap revetment and perimeter chain-link fence. The buried pipelines associated with the existing tanks may be removed or abandoned in place.

CVWD is a California Special District formed in 1918 to protect and conserve local water sources to the Coachella Valley. The District provides irrigation and domestic drinking water, collects and recycles wastewater, provides regional storm water protection, replenishes the groundwater basin and promotes water conservation. The proposed Project would restore and improve water storage infrastructure and ensure reliable and sustainable domestic water supply and fire flow protection to CVWD's customers within the Sky Valley Domestic Water Production Zone / Indio Hills Pressure Zone, which serves the unincorporated community of Indio Hills.

Project Location

The Project site is located in the northwest portion of CVWD's service area within the unincorporated community of Indio Hills, Riverside County, California approximately 0.5 mile north of the intersection of 30th Avenue and Sunny Rock Road. The Project site is located within the southwest corner of Assessor Parcel Number (APN) 750-130-005, a 3.67-acre, CVWD-owned property located within a portion of Section 11, Township 4 South, Range 7 East, San Bernardino Base and Meridian.
