**Present Land Use/Zoning/General Plan Designation:**

**Project Description:** *(please use a separate page if necessary)*

The project proposes to construct a water well (known as DOM 301) and a water treatment plant on the project site. As part of the project, conveyance pipelines would also be constructed in the Long Beach Boulevard, Victoria Street, and Barclay Street rights-of-way to link two nearby existing water wells, DOM 272 and DOM 297, to the proposed treatment plant. Groundwater produced at the two existing wells and the proposed well would be delivered to the proposed water treatment plant on-site and then to the local distribution system, including Cal Water's existing Dominguez District system within the City of Long Beach and County of Los Angeles jurisdictions.

City discretionary approvals for the proposed project include CEQA Clearance, Conditional Use Permit, Building Permit, Sewer Connection Permit, Encroachment Permit, and Permit for 24-Hour Drilling. Additionally, a Discharge Permit from the Los Angeles County Fire Department Petrochemical Unit, Waste Discharge Permit from the Sanitation Districts of Los Angeles County, Operation Permit from the South Coast Air Quality Management District, and a Drinking Water Permit Amendment from the State Water Resources Control Board Division of Drinking Water would be required.

*Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.*

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
