Subject: PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT  
PROPERTY WEST OF SIERRA AVENUE AND UNDER WOOD DRIVE  
INTERSECTION  
FONTANA, SAN BERNARDINO COUNTY, CALIFORNIA

Mr. Shah:

In accordance with our proposal No.2019-552 dated December 17, 2019, we have performed a Phase I Environmental Site Assessment (ESA) of the property and improvements located on the west side of the Sierra Avenue and Under Wood Drive intersection (the Site) in Fontana, California for Kitchell CEM (the Client). We performed the Phase I ESA to assess the potential for existing hazardous substances and/or petroleum product impacts at the Site as part of the Client's due diligence for their site acquisition process.

The enclosed report summarizes the findings of the Phase I ESA, including the potential presence of Recognized Environmental Conditions as defined by the American Society for Testing and Materials *Designation E 1527-13, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.*

We appreciate the opportunity to have performed this Phase I ESA for Kitchell CEM. Please contact us if you have any questions concerning this report or if we may be of further service.

Sincerely,

**GEOCON WEST, INC.**

Adrian Escobar  
Staff Geologist

Jim Brake, PG  
Senior Geologist

# PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

## 1.0 INTRODUCTION

We performed a Phase I Environmental Site Assessment (ESA) of the property and improvements located on the west side of the Sierra Avenue and Under Wood Drive intersection (the Site) in Fontana, California for Kitchell CEM (the Client). We performed the Phase I ESA to assess the potential for existing hazardous substances and/or petroleum product impacts at the Site as part of the Client's due diligence for their site acquisition process.

### 1.1 Purpose and Objectives

The purpose of the Phase I ESA was to identify evidence or indications of 'recognized environmental conditions' (REC) as defined by the American Society for Testing and Materials (ASTM) *Designation E 1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process*. Section 1.1.1 of ASTM *Designation E 1527-13* defines an REC as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment. De minimis conditions are not recognized environmental conditions." De minimis conditions are those that generally do not present a threat to human health or the environment and that generally would not be the subject of the enforcement action if brought to the attention of appropriate governmental agencies.

ASTM *Designation E1527-13* also defines 'Historical' and 'Controlled' RECs (HREC and CREC, respectively). An 'Historical REC' is defined as "a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." A 'Controlled REC' is defined as "a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls)." An HREC is not an REC if a property meets current standards for unrestricted residential use. A CREC remains an REC by definition when a property does not meet the unrestricted residential use requirement unconditionally.

We also conducted the Phase I ESA in general accordance with the requirements of 40 Code of Federal Regulations (CFR) Part 312 titled *Standards and Practices for All Appropriate Inquiries*, as required under Sections 101(35)(B)(ii) and (iii) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). The purpose of conducting an all appropriate inquiries investigation into the previous ownership and uses of a property is to meet the provisions necessary for the landowner, contiguous property owner, and/or bona fide prospective purchaser to qualify for certain landowner liability protections under CERCLA.

The following principles are an integral part of ASTM *Designation E1527-13*:

- “**Uncertainty Not Eliminated** - No environmental site assessment can wholly eliminate uncertainty regarding the potential for recognized environmental conditions in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for recognized environmental conditions in connection with a property, and this practice recognizes reasonable limits of time and cost.”
- “**Not Exhaustive** - All Appropriate Inquiries does not mean an exhaustive assessment of a property. There is a point at which the cost of information obtained or the time required to gather it outweighs the usefulness of the information and, in fact, may be a material detriment to the orderly completion of transactions. One of the purposes of this practice is to identify a balance between the competing goals of limiting the costs and time demands inherent in performing an environmental site assessment and the reduction of uncertainty about unknown conditions resulting from additional information.”
- “**Level of Inquiry is Variable** - Not every property will warrant the same level of assessment. Consistent with good commercial and customary practice, the appropriate level of environmental site assessment will be guided by the type of property subject to assessment, the expertise and risk tolerance of the user, and the information developed in the course of the inquiry.”

## 1.2 Scope of Services

Our Proposal No. 2019-552 dated November 18, 2019 describes the scope of services for this Phase I ESA. We performed the scope of services outlined in the proposal with the exception that we did not review Sanborn Fire Insurance Maps (Sanborn maps), as Environmental Data Resources, Inc. (EDR) indicated that Sanborn map coverage does not exist for the Site and vicinity.

The main components of the Phase I ESA and their objectives, as specified by the referenced standards, include the following:

- **Physical Setting:** We reviewed physical setting references to obtain information concerning the topographic, geologic, and hydrogeologic characteristics of the Site and vicinity. Such information may be indicative of the direction and/or extent that a contaminant could migrate in the event of a spill or release.

- **Records Review:** We reviewed publicly available Federal, State, and local regulatory agency records to obtain information that could potentially help identify RECs at or potentially affecting the Site.
- **Site History:** We reviewed historical references to assess the history of previous uses of the Site and surrounding area to identify those that could have led to RECs on or near the Site. Historical sources reviewed included Sanborn Fire Insurance Maps, aerial photographs, topographic maps, and city directories. In addition, we conducted interviews with persons who were expected to be reasonably knowledgeable about historical and/or current conditions at and uses of the Site.
- **Site Reconnaissance:** We performed a site reconnaissance to observe site conditions and activities for indications of evidence of RECs. The site reconnaissance was for the Site only. Offsite properties and features were viewed solely from the vantage of the Site and public thoroughfares.

### 1.3 Report Limitations

We prepared this Phase I ESA report exclusively for the Client. The information obtained is only relevant for the dates of the records reviewed and the latest site visit. Therefore, the information contained herein is only valid as of the date of the report and will require an update after 180 days to reflect updated records and another site reconnaissance to assess current site conditions.

The Client should recognize that a Phase I ESA is not a comprehensive site characterization and should not be construed as such. The findings and conclusions presented in this report are predicated on the site reconnaissance, information in the specified regulatory records, and information regarding the historical usage of the Site, as presented in this report. The Client should also understand that wetlands, asbestos-containing building materials, lead-containing paint, lead in drinking water, radon, mercury related to mining activities, methane, and mold surveys were not included in the scope of services for this Phase I ESA. Assessment for potential naturally-occurring hazards such as asbestos and arsenic also was not included.

Therefore, the report should only be deemed conclusive with respect to the information obtained. No guarantee or warranty of the results of the Phase I ESA is implied within the intent of this report or any subsequent reports, correspondence or consultation, either express or implied. We strove to conduct the services summarized herein in accordance with the local standard of care in the geographic region at the time the services were rendered.

## **1.4 Data Gaps**

A data gap is defined by ASTM *Designation E 1527-13* as “a lack of or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information.” Data gaps could include such things as insufficient historical information, the inability to interview persons with direct site knowledge (e.g., the owner(s), past owner(s), tenants, workers, etc.) or the lack of access to all parts of a site during the site reconnaissance. We identified no data gaps during this Phase I ESA.

As stated in Section 1.2, we did not review Sanborn maps for the Site because coverage does not exist for the Site and vicinity. However, we were able to review other sufficient historical information and therefore do not consider the lack of Sanborn map coverage a data gap.

## **2.0 SITE DESCRIPTION**

This section describes the location and physical characteristics of the Site including its size and topography, as well as geologic, soil, and hydrogeologic conditions.

### **2.1 Location and Legal Description**

The approximate 14.5-acre Site is adjacent to the west of the Sierra Avenue and Under Wood Drive intersection, and approximately one mile south of Interstate 10, in Fontana, San Bernardino County, California (Figure 1). The Site is in the southeastern portion of Section 30 of Township 1 South, Range 5 West, San Bernardino Base and Meridian.

The Site is identified by San Bernardino County assessor’s parcel numbers (APN) 0255-101-05-0000, -06-0000, -07-0000, -08-0000, and -09-0000. A parcel map depicting the Site is in Appendix A.

### **2.2 Site and Vicinity General Characteristics**

The northern two site parcels (APNs 0255-101-05-0000 and 0255-101-06-0000) are developed with single-family residences and the remainder of the Site is undeveloped vacant lots (Figure 2). The Site is situated in an area of single-family residential and retail-commercial development. Further description of the surrounding vicinity is provided in Section 6.0.

#### **2.2.1 Topography**

The United States Geological Survey (USGS) *Fontana, California* topographic map shows the topography of the Site as relatively flat-lying at an elevation of approximately 1,050 feet above mean sea level (USGS, 2018). Regionally, the topography of the San Bernardino Valley is characterized by an alluvial fan surface that slopes gently downward to the south to an area near the southern end of the Site and from there slopes upward toward the Jurupa Hills approximately ½ mile south of the Site.

## **2.2.2 Geologic Conditions**

We obtained geologic information from a variety of sources including *Geology of California* (Norris and Webb, 1990) and *Preliminary Geologic Map of Fontana 7.5' Quadrangle, San Bernardino and Riverside Counties, California*, (CGS, 2003). Following are summaries of pertinent information obtained from these and other sources.

### **2.2.2.1 Geomorphic Region**

The Site is located within the San Bernardino Valley in the northern portion of the Peninsular Ranges geomorphic province of Southern California. The Peninsular Ranges extend 900 miles from their northern terminus against the Transverse ranges, north of the Los Angeles Basin, southward to the tip of Baja California. The province varies in width from approximately 30 to 100 miles and is traversed by a group of faults and fault zones trending roughly northwest-southeast. In general, the province consists of rugged northwest-southeast trending mountain ranges with intervening valleys. The ranges are composed extensively of Cretaceous-age rocks with lesser amounts of Jurassic-age rocks. Post-Cretaceous marine sedimentary formations up to 40,000 feet in thickness can be found in the northernmost portion of the ranges (Norris and Webb, 1990).

### **2.2.2.2 Geologic Formations/Stratigraphy**

The referenced geologic map indicates that the Site is underlain by young alluvial fan deposits, which are unconsolidated (CGS, 2003). We performed a geotechnical investigation of the Site on January 23, 2020, which consisted of advancing eight hollow-stem auger borings to a maximum depth of 20 feet, logging the soil encountered and collecting samples for physical testing. The investigation confirmed that the Site is underlain by a thin veneer of artificial fill overlying alluvium. The artificial fill consists of light brown to brown silty sand and the alluvium consists of yellowish brown to brown silty sand and brown to greyish brown silt with sand.

## **2.2.3 Soil Conditions**

We obtained general information concerning surficial soil conditions at and in proximity to the Site from the United States Department of Agriculture – Natural Resources Conservation Service Web Soil Survey (<http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm>). Web Soil Survey information indicates that surficial onsite soil is classified as Delhi fine sand. Delhi fine sand is described as somewhat excessively drained sandy alluvium derived from granite.

#### **2.2.4 Hydrologic and Hydrogeologic Conditions**

Site-specific information regarding groundwater occurrence and flow direction is not available and we did not encounter groundwater in any of the borings we advanced at the Site for our geotechnical investigation. Therefore, in an effort to assess local groundwater conditions, we reviewed reports available on the California Department of Water Resources online database (<http://wdl.water.ca.gov/waterdatalibrary/>) for nearby facilities with a groundwater monitoring well array. The nearest monitoring well is located on a commercial property approximately 0.46 miles (2,413 feet) northwest of the Site. The monitoring well (state well number 01S05W30L001S) is reported as active with an unknown use. Depth to groundwater data for this well dates back to 1912 and was most recently measured at 317.28 feet in October of 2008. However, given the distance of this well from the Site, the depth to groundwater data may not be representative of that beneath the Site.

#### **2.3 Current and Planned Uses of the Site**

The current use of the two northern site parcels is single-family residential and the other three site parcels are vacant and not used for any purpose. The Client plans to develop the Site for institutional use as a Community College.

#### **2.4 Descriptions of Structures, Roads, and Other Improvements on the Site**

Three single-family, single-story dwellings are present on the two northern parcels. The vacant portion of the Site is surrounded by a chain-link fence. Further description of site conditions is in Section 6.0.

#### **2.5 Current Uses of Adjoining Properties**

The current uses of the adjoining properties include single-family residential and retail-commercial (Sierra Crossroads shopping center) beyond Sierra Avenue to the east. A surface water retention/groundwater recharge basin is on the adjoining property to the south beyond which is single-family residential. To the west is single-family residential and to the north is retail-commercial (Home Depot).

### **3.0 USER-PROVIDED INFORMATION**

This section summarizes information provided by the Client regarding the Site. Melanie Siddiqi with Chaffey Community College completed the user questionnaire (Appendix B). We also asked Ms. Siddiqi if she knew of previous environmental reports or documents that may exist and, if so, whether copies could be provided. We also asked if she had knowledge of legal or administrative proceedings involving the Site.

### **3.1 Title, Appraisal and Sale Agreement Records**

Ms. Siddiqi did not provided a title report, appraisal or sale agreement for the Site.

### **3.2 Environmental Liens or Activity and Use Limitations**

Ms. Siddiqi indicated that she is not aware of any environmental liens or activity and use limitations for the Site.

### **3.3 Specialized Knowledge**

Ms. Siddiqi indicated that she has no specialized knowledge regarding past or current uses of the Site that could potentially impair or could have impaired the environmental conditions of the Site.

### **3.4 Commonly Known or Reasonably Ascertainable Information**

Ms. Siddiqi has no commonly known or reasonably ascertainable information unique to the Site.

### **3.5 Valuation Reduction for Environmental Issues**

Ms. Siddiqi indicated that value of the property reasonably reflects the fair market value.

### **3.6 Owner, Property Manager, and Occupant Information**

We provided David Nguyen of Lee & Associates, a representative of the site owners, with an Owner Questionnaire regarding their knowledge of the Site and surrounding properties. Information from this questionnaire is summarized in Section 7.0.

### **3.7 Reason for Performing Phase I ESA**

The Client requested the Phase I ESA to obtain information regarding the potential for existing hazardous substances and/or petroleum product impacts at the Site as part of the Client's due diligence for their site acquisition process.

## **4.0 RECORDS REVIEW**

This section summarizes information we obtained from readily available agency records pertaining to the Site and properties and facilities in the surrounding vicinity.

### **4.1 Standard Environmental Record Sources**

Environmental Data Resources, Inc. (EDR) searched federal, state, and local environmental databases for the Site and properties/facilities within one mile of the Site. The following table lists the databases EDR searched, the properties/facilities listed, and the number of properties/facilities listed. Other databases searched that do not list any properties/facilities are not included in the table. A copy of the report *The EDR Radius Map Report with GeoCheck*, dated December 3, 2019, is in Appendix C.

| <b>DATABASE</b>   | <b>Search Radius (Miles)</b> | <b>Number of Listings</b> |

| <b>TOTAL</b>  |                              | <b>45</b>                 |
| * = Site is listed.   |                              |                           |

#### **4.1.1 Site**

**Jason McGraw, 11040 Sierra Avenue** – The Clandestine Drug Labs (CDL) database notes that the Site was the location of an illegal drug lab or where drug lab equipment and/or materials were stored. The HAZNET listing is for disposal of “off-specification, aged, or surplus organics, liquids with pH  $\leq 2$ , and other inorganic solids”. Inclusion on these databases appears to be due to removal of an illegal drug lab and its contents from the Site and does not represent an REC for the Site.

**Sherrie Rice, Scott Letton, and Jason McGraw 11044 Sierra Avenue** – The CHMIRS database notes that a spill of 15 gallons of non-PCB-containing mineral oil took place and was contained on the Site in 2006. The nature of the activity is not considered an REC. The CDL database notes the same information as summarized above.

#### **4.1.2 Offsite Properties**

Thirty one properties within one mile of the Site are listed on various non-release databases<sup>1</sup> and therefore are unlikely to have caused an REC at the Site.

An active drycleaners (Palm Cleaners and Spiffy Dry Cleaners) at 11251 Sierra Avenue, #2A in the Sierra Crossroads shopping center (approximately 850 southeast of the Site) is listed on the DRYCLEANERS, EDR's Hist Cleaner database, HAZNET, RCRA Non-gen/NLR, and San Bernardino Permit databases. This business is listed as active in this location since 2006. No releases or violations are reported for this facility, but available information indicates that the facility does have dry cleaning equipment and uses petroleum solvents. However, given the lack of any reported releases or violations and the distance from the Site, this facility is considered unlikely to have caused an REC at the Site.

#### **4.2 Orphan Summary**

The Orphan Summary identifies facilities that have incomplete address information and therefore could not be accurately plotted by EDR. The following table summarizes the findings of the Orphan summary.

| <b>Address</b>                        | <b>Database</b> | <b>Distance from Site (miles)</b> | <b>Direction</b> |
|---------------------------------------|-----------------|-----------------------------------|------------------|
| CYPRESS ST, BETWEEN SIERRA & CITRUS   | CDL             | 0.5                               | West             |
| MOTEL 6 10195 SIERRA AVE RM 119       | CDL             | 1.0                               | North-northeast  |
| ON GLEN HELEN PARKWAY @ SIERRA AVENUE | CDL             | 9.2                               | North            |
| SIERRA LAKE RD (NEW DEVEL./OPEN LOT)  | CDL             | 6.3                               | North            |

The distance of these facilities from the Site suggests that they would not have caused an REC at the Site.

---

<sup>1</sup> "Release" refers to an unauthorized release of a petroleum product or hazardous substance to the environment (i.e., the ground surface, soil, soil vapor, groundwater, or surface water on a property). "Release-related database" refers to databases that provide information regarding an unauthorized release. "Non-release-related database" refers to databases that may report use, storage, or disposal of hazardous substances and/or petroleum products or other environmental conditions but do not report releases of such.

### 4.3 Other Environmental Record Sources

#### 4.3.1 GeoTracker and EnviroStor

We reviewed information available on GeoTracker and the Department of Toxic Substances Control's EnviroStor database (<http://www.envirostor.dtsc.ca.gov/public/>) for information regarding any documented environmental assessment and cleanup at the Site and/or properties/facilities within 1/4 mile of the Site. No information for the Site or offsite properties within 1/4 mile of the site is available on either EnviroStor or GeoTracker.

#### 4.3.2 CalGEM

We reviewed the California Geologic Energy Management Division (CalGEM) online mapping system for information regarding the location and status of oil or natural gas exploration or production at or in the vicinity of the Site. The CalGem online mapping system shows one plugged, dry-hole well approximately 3.5 miles east of the Site (CalGem, 2020). The dry-hole and plugged status of this former well and distance from the Site suggests that it would not have caused an REC at the Site.

## 5.0 HISTORICAL USE

We evaluated the historical use of the Site and adjacent properties through review of historical aerial photographs and topographic maps, as well as city directories provided by EDR. This section summarizes information obtained from these sources.

### 5.1 Aerial Photographs

We reviewed historical aerial photographs for the years 1938, 1948, 1953, 1959, 1967, 1975, 1985, 1990, 1994, 2005, 2009, 2012, and 2016 (Appendix D) for indications of past land uses that could have potentially impacted the Site through the use, storage, or disposal of hazardous substances and/or petroleum. The following table summarizes our observations of the Site and adjacent properties on the historical aerial photographs.

| Year                | Observations   |   |
|---------------------|--|---|
|                     | Site   | Adjacent Properties   |
| 1938<br>(1" = 500') | The Site appears to have been planted with an orchard  | Adjacent properties also appear to have been in agricultural use with several north-south and east-west-oriented roads. |
| 1948<br>(1" = 500') | Conditions were similar to those observed on the 1938 photograph.  | Conditions were similar to those observed on the 1938 photograph.   |
| 1953<br>(1" = 500') | Conditions were similar to those observed on the 1948 photograph except several structures were present on the Site. | Conditions were similar to those observed on the 1948 photograph except additional structures were present.             |

| Year                | Observations   |  |
|---------------------|--|--|
|                     | Site   | Adjacent Properties  |
| 1959<br>(1" = 500') | Conditions were similar to those observed on the 1953 photograph except for additional structures now present on the Site.               | Conditions were similar to those observed on the 1953 photograph except for additional structures now present on adjacent properties and roads had been improved.  |
| 1967<br>(1" = 500') | Conditions were similar to those observed on the 1959 photograph except for the Site no longer appears to have been used as an orchard.. | Conditions were similar to those observed on the 1959 photograph except for properties to the south and west no longer appears to have been used as an orchard.  |
| 1975<br>(1" = 500') | Conditions were similar to those observed on the 1967 photograph.  | Conditions were similar to those observed on the 1967 photograph.  |
| 1985<br>(1" = 500') | Conditions were similar to those observed on the 1975 photograph except several structures were no longer present.                       | Conditions were similar to those observed on the 1975 photograph.  |
| 1990<br>(1" = 500') | Conditions were similar to those observed on the 1985 photograph except additional structures were present.                              | Conditions were similar to those observed on the 1985 photograph except additional structures present.   |
| 1994<br>(1" = 500') | Conditions were similar to those observed on the 1990 photograph except some structures were no longer present.                          | Conditions were similar to those observed on the 1990 photograph.  |
| 2005<br>(1" = 500') | Conditions were similar to those observed on the 1994 photograph.  | Conditions were similar to those observed on the 1994 photograph except several additional structures were present to the south and west and single-family residential subdivision was present to the east.      |
| 2009<br>(1" = 500') | Conditions were similar to those observed on the 2005 photograph.  | Conditions were similar to those observed on the 2005 photograph except retail-commercial was present to the north and east and additional single-family residential units added to the subdivision to the east. |
| 2012<br>(1" = 500') | Conditions were similar to those observed on the 2009 photograph.  | Conditions were similar to those observed on the 2009 photograph.  |
| 2016<br>(1" = 500') | Conditions were similar to those observed on the 2012 photograph.  | Conditions were similar to those observed on the 2012 photograph.  |

The aerial photographs show agricultural use of the Site (an orchard) on the 1938 through 1959 photographs. The past agricultural use of the Site is a potential environmental concern for the Site because of the possible application of pesticides and potential presence of persistent pesticides and associated metals in soil on the Site.

## 5.2 Topographic Maps

We reviewed historical topographic maps for the years 1896, 1898, 1901, 1942, 1943, 1953, 1954, 1967, 1973, 1975, 1980, and 2012 (Appendix E). The following table summarizes our observations of the Site and adjacent properties on the historical topographic maps.

| Year                       | Observations  |  |
|----------------------------|---|--|
|                            | Site  | Adjacent Properties  |
| 1896 to 1901<br>(1:62,500) | No structures or land uses are depicted on the Site.  | A road is depicted along the Site to the east and roads are depicted within one mile in all directions from the Site. The Southern Pacific Railroad is depicted 3/4 mile north of Site. One structure depicted to the northwest of the Site.   |
| 1942<br>(1:50,000)         | Conditions are similar to those depicted on the 1896, 1898, and 1901 maps.  | Roads are depicted in all directions within 1/4 of a mile of the Site. Five structures are depicted around the Site to the north, west and south. An orchard is depicted adjoining the Site to the south.  |
| 1943<br>(1:31,680)         | Conditions are similar to those depicted on the 1942 map with the exception that the Site is in an area shaded pink, indicating an urbanized area.  | Conditions are similar to those depicted on the 1942 map with the exception that the orchard is no longer depicted and the area is shaded pink.  |
| 1953<br>(1:24,000)         | The Site is depicted as an orchard with two structures on the eastern side.   | Conditions are similar to those depicted on the 1943 map with the exception of the two structures to the north no longer being depicted and several additional structures depicted to the south. Orchards are depicted to the south and west and vineyards are depicted to the north and east. |
| 1954<br>(1:62,500)         | Conditions are similar to those depicted on the 1953 map.   | Conditions are similar to those depicted on the 1953 map.  |
| 1967<br>(1:24,000)         | Conditions are similar to those depicted on the 1954 map with the exception that the orchard is not depicted and three additional structures are depicted along the eastern boundary of the Site. | Conditions are similar to those depicted on the 1954 map with the exception that an orchard is not depicted to the south.  |
| 1973<br>(1:24,000)         | Conditions are similar to those depicted on the 1967 map with the exception that seven additional structures are depicted on the southern portion of the Site.                                    | Conditions are similar to those depicted on the 1967 map with the exception that additional structures depicted west of the Site.  |
| 1975<br>(1:50,000)         | Conditions are similar to those depicted on the 1973 map.   | Conditions are similar to those depicted on the 1973 map with the exception that additional structures are depicted west of the Site and a vineyard is not depicted to the north.  |
| 1980<br>(1:24,000)         | Conditions are similar to those depicted on the 1975 map.   | Conditions are similar to those depicted on the 1975 map with the exception that additional structures are depicted west of the Site and a vineyard is again depicted north of the Site.   |
| 2012<br>(1:24,000)         | No structures are depicted.   | No vegetation or structures depicted.  |

The topographic maps depict agricultural use of the Site (an orchard) on the 1953 and 1954 maps. As described for the aerial photographs, the past agricultural use of the Site is a potential environmental concern for the Site because of the possible application of pesticides and potential presence of persistent pesticides and associated metals in soil on the Site.

### 5.3 City Directories

EDR prepared an abstract of city directories including city, cross reference, and a telephone directory, which are summarized in the *EDR-City Directory Image Report* dated January 8, 2020. The directories were reviewed at approximately 5-year intervals, if available, from 1922 to 2014. A copy of the EDR city directory abstract, including information regarding offsite facilities, is in Appendix F.

The city directories indicate that the Site has historically had various uses and occupants between 1955 and 2008. The following table summarizes the findings of the *EDR-City Directory Image Report*.

|      | Address             | Year               | Occupant/Use                                |                                |
|------|---------------------|--------------------|---|--------------------------------|
| Site | 11016 Sierra Avenue | 2008               | CRULL Mary                                  |                                |
|      |                     | 2003               | CATREN Jeffrey                              |                                |
|      |                     | 2003               | MIZYSAK Henry                               |                                |
|      |                     | 2002               | Catren Jeffrey                              |                                |
|      |                     | 1991               | Catren Jeff & Mary                          |                                |
|      |                     | 1990               | Catren Jeff & Mary                          |                                |
|      |                     | 1975               | Mieysak Henry                               |                                |
|      |                     | 1975               | Mizysak Mary                                |                                |

No business names that would suggest the presence of RECs are listed for the Site or adjoining or adjacent properties on the city directories.

## **6.0 SITE RECONNAISSANCE**

This section summarizes our observations of the Site and surrounding properties made during the site reconnaissance.

### **6.1 Methodology and Limiting Conditions**

Adrian Escobar, Staff Geologist with Geocon, performed the site reconnaissance unaccompanied on January 23, 2020 by walking throughout the Site to observe site features and conditions. Mr. Escobar observed offsite (adjoining and adjacent) properties from the Site and public roads. Weather on the day of the site reconnaissance was sunny with temperatures in the mid-70s°F. Photographs of various site features and offsite properties are appended.

### **6.2 Site Setting**

The Site is situated in an area of predominantly single-family residential and retail-commercial uses.

### **6.3 Onsite Survey**

The Site consists of five parcels two of which are residential and three are vacant and not used for any purpose. The residences two northernmost parcels are in various degrees of upkeep with debris of various types around the residences and scattered about the yards (Photos 1 through 17). The three southern site parcels are vacant with some remnants of previous onsite structures (Photos 18 through 21). We observed no evidence of RECs on the Site.

### **6.4 Offsite Survey**

Adjoining and adjacent properties consist of the following:

- East – Sierra Avenue beyond which is a single-family residential subdivision (less than ¼-acre lots), retail-commercial (Sierra Crossroads shopping center), and two pole mounted transformers (Photos 22 through 25);
- North – Retail-commercial (a Home Depot-anchored shopping development) (Photos 3);
- West – larger-acreage (non-subdivision) single-family residential (Photos 26);
- South – Stormwater recharge basin (Photos 27).

We observed no evidence of conditions on adjoining and adjacent properties with the potential to cause or have caused an REC at the Site.

## **7.0 INTERVIEWS**

We provided Mr. Nguyen of Lee and Associates with an owner questionnaire regarding the past and present use of the Site and the potential for impacts related to the use, storage, or disposal of hazardous substances and/or petroleum products on the Site. Mr. Nguyen forwarded copies of the questionnaire to the individual owners of the five parcels for completion. Copies of the owner questionnaires are in Appendix G.

Ms. Crull, owner of APN 0255-101-05, stated that her family has owned the parcel since 1952. Ms. Crull described the current use of the parcel as residential (her current residence) and that it has been such since purchased. Ms. Crull indicated that she was not aware of the past use of the parcel prior to purchase. Ms. Crull stated that the parcel has three septic tanks. Ms. Crull stated that she is not aware of any environmental issues related to the Site or the adjacent properties.

Ms. Park, owner of APN 0255-101-06, stated that she has owned the parcel for approximately 31 years. Ms. Park described the current use of the parcel as residential (two rental homes) and that it has been such since purchased. Ms. Park indicated that she was not aware of the past use of the parcel prior to purchase and that she is not aware of any environmental issues related to the Site or the adjacent properties.

Mr. Baron, owner of APN 0255-101-07, stated that he has owned the parcel for approximately 15 years. Mr. Baron described the parcel as vacant for the past 4 years. Mr. Baron provided a previously completed Phase I ESA report that indicates the parcel has been use only for agricultural and residential purposes. Mr. Baron stated that he is not aware of any environmental issues related to the Site or the adjacent properties.

Mr. Kobal, owner of APN 0255-101-08, stated that he inherited the parcel from his father in 2001 and that his father purchased it sometime between the late 1950's and late 1960's. Mr. Kobal described the parcel as vacant and that it has been so since his father acquired it. Mr. Kobal stated that he is not aware of any environmental issues related to the Site or the adjacent properties.

Mr. Tusko of Skynew Group LLC (Skynew), owner of APN 0255-101-09, stated that he has owned the parcel since 2015. Mr. Tusko describes the parcel as vacant and that it has been so since Skynew acquired it in 2015. Mr. Tusko believes the parcel was previously planted with a walnut orchard based on the large number of walnut trees present on the property. Mr. Tusko stated that he is not aware of any environmental issues related to the Site or the adjacent properties.

## 8.0 SUMMARY OF FINDINGS

The following table presents a summary of findings and opinions associated with this Phase I ESA of the Site, including known or suspect RECs, HRECs, CRECs, environmental concerns, and de minimis environmental conditions. We observed no evidence of RECs or de minimis environmental conditions at the Site.

| Assessment Category  | Observed (Y/N) | (REC/<br>CREC/<br>HREC/<br>DM, EC,<br>or None) | Recommended Actions | Report Section(s) |
|--|----------------|--|---------------------|-------------------|
| <b>Hazardous Substances/Petroleum Products</b>   | N              | N  | NFA                 |                   |
| <b>Hazardous Wastes</b>  | N              | N  | NFA                 |                   |
| <b>Non-Hazardous Wastes</b>  | Y              | N  | NFA                 |                   |

| <b>Historical Land Use – Nearby Properties</b>   | N              | N  | NFA                 |                   |
| <b>Recommended Action:</b><br>AA = Additional action recommended.<br>NFA = No further action required at this time.<br>DM = De minimis condition where additional activities do not appear warranted at this time.<br>EC =environmental concern<br>N =none |                |  |                     |                   |

The past agricultural (orchard) use of the Site is a potential environmental concern due to the possible application of pesticides and potential presence of persistent pesticides and associated metals in soil on the Site. Recommendations to address this concern are provided in the following section.

## 9.0 CONCLUSIONS AND RECOMMENDATIONS

We have performed a Phase I ESA in general conformance with the scope and limitations of ASTM *Designation E 1527-13* of the property and improvements at located on the west side of the Sierra Avenue and Under Wood Drive intersection Fontana, California. Exceptions to, or deletions from, this practice are described in Section 1.4 of this report.

This Phase I ESA identified the past agricultural (orchard) use of the Site as a potential environmental concern due to the possible application of pesticides and potential presence of persistent pesticides and associated metals (e.g. arsenic and lead) in soil on the Site. A Phase II ESA to assess surficial and shallow soil on the Site for the potential presence of organochlorine pesticides, arsenic, and lead in accordance with DTSC agricultural property investigation guidelines is warranted, but not required. Given the planned school use of the Site and the Client's risk management preferences, it is the Client's decision to proceed with further assessment or not. Geocon can prepare a scope of services and cost estimate for a Phase II ESA at the Client's request.

## 11.0 QUALIFICATIONS

Mr. Brake has an MS degree in Geological Science and 33 years of experience in environmental investigation and remediation, including implementation of Remedial Investigation/Feasibility Study programs and soil and groundwater remedial actions for private industrial and government clients. He has managed a wide variety of projects for clients in the manufacturing, transportation, mining, automobile and real estate industries including Environmental Protection Agency and DTSC Superfund sites. Mr. Brake has extensive experience in the performance of Phase I and II ESAs of commercial, industrial, and agricultural properties throughout California.

I declare that, to the best of my professional knowledge and belief, I meet the definition of environmental professional as defined in §312.10 of 40 CFR 312 and I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries investigation in conformance with the standards and practices set forth in 40 CFR Part 312.

Jim Brake, PG  
Senior Geologist

## User Questionnaire

1. Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?  
No.
2. Are you aware of any activity and land use limitations, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? **No.**
3. Do you have any specialized knowledge related to the property or nearby properties?  
**No.**
4. Does the purchase price reasonably reflect the fair market value of the property? **Yes.**
5. What is the planned use of the property? **Community college campus.**
6. Do you know the past uses of the property? **No.**
7. Do you know of specific chemicals that are present or once were present at the property? **No.**
8. Do you know of spills or other chemical releases that have taken place at the property? **No.**
9. Do you know of any environmental cleanups that have taken place at the property?  
**No.**
10. Do you know whether any helpful documents exist and, if so, whether copies can and will be provided for this assessment? These documents may include: Environmental site assessment reports, Environmental compliance audit reports, Environmental permits, Registrations for storage tanks, Registrations for underground injection systems, or any other documents related to the property. **No.**

## EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

### TARGET PROPERTY INFORMATION

#### ADDRESS

11016 SIERRA AVE  
FONTANA, CA 92337

#### COORDINATES

Latitude (North): 34.0526340 - 34° 3' 9.48"  
Longitude (West): 117.4367070 - 117° 26' 12.14"  
Universal Transverse Mercator: Zone 11  
UTM X (Meters): 459694.9  
UTM Y (Meters): 3767883.2  
Elevation: 1054 ft. above sea level

# EXECUTIVE SUMMARY

## TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

## DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

## STANDARD ENVIRONMENTAL RECORDS

### ***Federal NPL site list***

NPL..... National Priority List  
Proposed NPL..... Proposed National Priority List Sites  
NPL LIENS..... Federal Superfund Liens

### ***Federal Delisted NPL site list***

Delisted NPL..... National Priority List Deletions

### ***Federal CERCLIS list***

FEDERAL FACILITY..... Federal Facility Site Information listing  
SEMS..... Superfund Enterprise Management System

### ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE..... Superfund Enterprise Management System Archive

### ***Federal RCRA CORRACTS facilities list***

CORRACTS..... Corrective Action Report

### ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

### ***Federal RCRA generators list***

RCRA-LQG..... RCRA - Large Quantity Generators  
RCRA-SQG..... RCRA - Small Quantity Generators

### ***Federal institutional controls / engineering controls registries***

LUCIS..... Land Use Control Information System  
US ENG CONTROLS..... Engineering Controls Sites List  
US INST CONTROL..... Sites with Institutional Controls

## EXECUTIVE SUMMARY

### ***Federal ERNS list***

ERNS..... Emergency Response Notification System

### ***State- and tribal - equivalent NPL***

RESPONSE..... State Response Sites

### ***State and tribal landfill and/or solid waste disposal site lists***

SWF/LF..... Solid Waste Information System

### ***State and tribal leaking storage tank lists***

LUST..... Geotracker's Leaking Underground Fuel Tank Report  
INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land  
CPS-SLIC..... Statewide SLIC Cases

### ***State and tribal registered storage tank lists***

FEMA UST..... Underground Storage Tank Listing  
AST..... Aboveground Petroleum Storage Tank Facilities  
INDIAN UST..... Underground Storage Tanks on Indian Land

### ***State and tribal voluntary cleanup sites***

VCP..... Voluntary Cleanup Program Properties  
INDIAN VCP..... Voluntary Cleanup Priority Listing

### ***State and tribal Brownfields sites***

BROWNFIELDS..... Considered Brownfields Sites Listing

### **ADDITIONAL ENVIRONMENTAL RECORDS**

#### ***Local Brownfield lists***

US BROWNFIELDS..... A Listing of Brownfields Sites

#### ***Local Lists of Landfill / Solid Waste Disposal Sites***

WMUDS/SWAT..... Waste Management Unit Database  
SWRCY..... Recycler Database  
HAULERS..... Registered Waste Tire Haulers Listing  
INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands  
DEBRIS REGION 9..... Torres Martinez Reservation Illegal Dump Site Locations  
ODI..... Open Dump Inventory  
IHS OPEN DUMPS..... Open Dumps on Indian Land

#### ***Local Lists of Hazardous waste / Contaminated Sites***

US HIST CDL..... Delisted National Clandestine Laboratory Register  
HIST Cal-Sites..... Historical Calsites Database

## EXECUTIVE SUMMARY

SCH..... School Property Evaluation Program  
Toxic Pits..... Toxic Pits Cleanup Act Sites  
US CDL..... National Clandestine Laboratory Register  
PFAS..... PFAS Contamination Site Location Listing

### **Local Lists of Registered Storage Tanks**

SWEEPS UST..... SWEEPS UST Listing  
HIST UST..... Hazardous Substance Storage Container Database  
CA FID UST..... Facility Inventory Database

### **Local Land Records**

LIENS..... Environmental Liens Listing  
LIENS 2..... CERCLA Lien Information  
DEED..... Deed Restriction Listing

### **Records of Emergency Release Reports**

HMIRS..... Hazardous Materials Information Reporting System  
LDS..... Land Disposal Sites Listing  
MCS..... Military Cleanup Sites Listing  
SPILLS 90..... SPILLS 90 data from FirstSearch

### **Other Ascertainable Records**

FUDS..... Formerly Used Defense Sites  
DOD..... Department of Defense Sites  
SCRD DRYCLEANERS..... State Coalition for Remediation of Drycleaners Listing  
US FIN ASSUR..... Financial Assurance Information  
EPA WATCH LIST..... EPA WATCH LIST  
2020 COR ACTION..... 2020 Corrective Action Program List  
TSCA..... Toxic Substances Control Act  
TRIS..... Toxic Chemical Release Inventory System  
SSTS..... Section 7 Tracking Systems  
ROD..... Records Of Decision  
RMP..... Risk Management Plans  
RAATS..... RCRA Administrative Action Tracking System  
PRP..... Potentially Responsible Parties  
PADS..... PCB Activity Database System  
ICIS..... Integrated Compliance Information System  
FTTS..... FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)  
MLTS..... Material Licensing Tracking System  
COAL ASH DOE..... Steam-Electric Plant Operation Data  
COAL ASH EPA..... Coal Combustion Residues Surface Impoundments List  
PCB TRANSFORMER..... PCB Transformer Registration Database  
RADINFO..... Radiation Information Database  
HIST FTTS..... FIFRA/TSCA Tracking System Administrative Case Listing  
DOT OPS..... Incident and Accident Data  
CONSENT..... Superfund (CERCLA) Consent Decrees  
INDIAN RESERV..... Indian Reservations  
FUSRAP..... Formerly Utilized Sites Remedial Action Program  
UMTRA..... Uranium Mill Tailings Sites  
LEAD SMELTERS..... Lead Smelter Sites

## SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

## STANDARD ENVIRONMENTAL RECORDS

### ***Federal RCRA generators list***

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 12/16/2019 has revealed that there is 1 RCRA-VSQG site within approximately 0.25 miles of the target property.

### ***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 07/29/2019 has revealed that there are 10 ENVIROSTOR sites within approximately 1 mile of the target property.

### State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

### ADDITIONAL ENVIRONMENTAL RECORDS

#### **Local Lists of Hazardous waste / Contaminated Sites**

CDL: A listing of drug lab locations. Listing of a location in this database does not indicate that any illegal drug lab materials were or were not present there, and does not constitute a determination that the location either requires or does not require additional cleanup work.

A review of the CDL list, as provided by EDR, and dated 06/30/2018 has revealed that there are 3 CDL sites within approximately 0.001 miles of the target property.

### **Other Ascertainable Records**

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/16/2019 has revealed that there are 9 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

## EXECUTIVE SUMMARY

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 4 DRYCLEANERS sites within approximately 0.25 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2017 has revealed that there are 3 HAZNET sites within approximately 0.001 miles of the target property.

# OVERVIEW MAP - 5926858.2S

Target Property

Sites at elevations higher than or equal to the target property

Sites at elevations lower than the target property

Manufactured Gas Plants

National Priority List Sites

Dept. Defense Sites

Indian Reservations BIA

Power transmission lines

Special Flood Hazard Area (1%)

0.2% Annual Chance Flood Hazard

National Wetland Inventory

State Wetlands

Areas of Concern

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001  
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

|                   |   |
|-------------------|---|
| Waste code:       | D002  |
| Waste name:       | A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE. |

| Comments:              | Not reported  |
| Description:           | RP states: Customer had a hole in the gas tank resulting in the release of 3 gallons of gasoline to the concrete and approximately 1 gallon into a nearby drain which is a catch basin that has filters in it. RP does not believe the drain leads to any waterways. The release is contained and no longer releasing. Clean Harbors conducted clean up includes vacuuming the release out of the drain. Release was fully recovered. |

Comments: Approved.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Supplemental Site Investigation Tech Memo  
Completed Date: 09/18/2007  
Comments: SSI Tech Memo Workplan was approved by DTSC for implementation.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Supplemental Site Investigation Report  
Completed Date: 10/07/2008  
Comments: DTSC approved the SSI report for FA in the form of RAW.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Supplemental Site Investigation Tech Memo  
Completed Date: 02/21/2008  
Comments: The SSI Workplan Addendum No. 1 was conditionally approved by DTSC for implementation. DTSC requested that sample additional sampling locations adjacent to the structures be utilized.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Fieldwork  
Completed Date: 04/18/2008  
Comments: Additional field sampling activities took place at the site in order to better determine the lateral and vertical extent of pesticide impacted soil associated with the former and existing structures. Soil sampling activities were conducted over the course of two days.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Removal Action Workplan  
Completed Date: 10/17/2008  
Comments: DTSC approved the RAW for implementation after completing the public comments period. 13 comments were received and did not affect the RAW conclusion.

Completed Area Name: PROJECT WIDE  
Completed Sub Area Name: Not reported  
Completed Document Type: Supplemental Site Investigation Tech Memo  
Completed Date: 06/27/2008  
Comments: DTSC reviewed the SSI Workplan Addendum No. 2 and concurred with the additional step-outs and step-downs necessary to delineate the soil impacted by organochlorine pesticides at the project site.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## **STANDARD ENVIRONMENTAL RECORDS**

### ***Federal NPL site list***

#### **NPL: National Priority List**

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

#### **Proposed NPL: Proposed National Priority List Sites**

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

|   | Data Release Frequency: Quarterly      |

#### **NPL LIENS: Federal Superfund Liens**

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

## ***Federal Delisted NPL site list***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 10/25/2019

Data Release Frequency: Quarterly

## ***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

|   | Data Release Frequency: Quarterly      |

## ***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

## ***Federal RCRA generators list***

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

|   | Data Release Frequency: Quarterly       |

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

|   | Data Release Frequency: Quarterly       |

## RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

|   | Data Release Frequency: Varies          |

### US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

## ***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 07/29/2019  
Date Data Arrived at EDR: 07/31/2019  
Date Made Active in Reports: 10/08/2019

Data Release Frequency: Quarterly

## **ADDITIONAL ENVIRONMENTAL RECORDS**

### **Local Brownfield lists**

#### US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 06/03/2019

## US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## SPILLS 90: SPILLS90 data from FirstSearch

Spills 90 includes those spill and release records available exclusively from FirstSearch databases. Typically, they may include chemical, oil and/or hazardous substance spills recorded after 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 90.

## Other Ascertainable Records

### RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

## EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013

Data Release Frequency: Quarterly

## 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017

Data Release Frequency: Annually

## RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Data Release Frequency: Varies

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

## ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

## HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

## WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

## WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

## CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

## EDR HIGH RISK HISTORICAL RECORDS

### ***EDR Exclusive Records***

#### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A

#### EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

## LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

### CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

### AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

### Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

### Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

### Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

### Private Schools

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

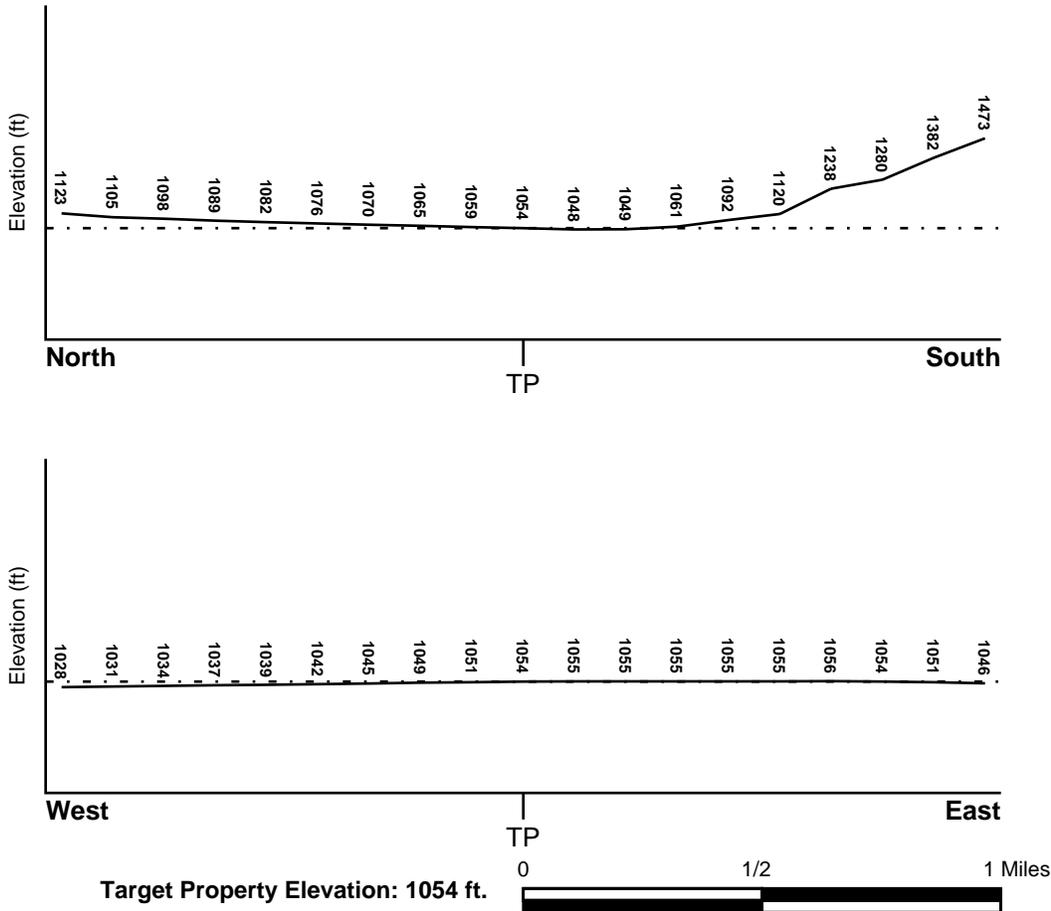

## TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

## SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## **FEMA FLOOD ZONE**

|   |                         |
|---|-------------------------|
| <u>Flood Plain Panel at Target Property</u> | <u>FEMA Source Type</u> |

| FONTANA                            | YES - refer to the Overview Map and Detail Map |

## **HYDROGEOLOGIC INFORMATION**

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### ***Site-Specific Hydrogeological Data\*:***

|                |            |
|----------------|------------|
| Search Radius: | 1.25 miles |
| Status:        | Not found  |

## **AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

| <u>MAP ID</u> | <u>LOCATION FROM TP</u> | <u>GENERAL DIRECTION GROUNDWATER FLOW</u> |

| Not Reported  |                         |   |

## **GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY**

### **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### **GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

#### **ROCK STRATIGRAPHIC UNIT**

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

## DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

### Soil Map ID: 1

Soil Component Name: DELHI

Soil Surface Texture: fine sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information |           |           |                    |   |  |  |                      |
|------------------------|-----------|-----------|--------------------|---|--|--|----------------------|
| Layer                  | Boundary  |           | Soil Texture Class | Classification  |  | Saturated hydraulic conductivity micro m/sec | Soil Reaction (pH)   |
|                        | Upper     | Lower     |                    | AASHTO Group  | Unified Soil   |  |                      |
| 1                      | 0 inches  | 18 inches | fine sand          | Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand. | COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand. | Max: 141<br>Min: 42                          | Max: 7.8<br>Min: 6.1 |
| 2                      | 18 inches | 59 inches | sand               | Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand. | COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand. | Max: 141<br>Min: 42                          | Max: 7.8<br>Min: 6.1 |

### LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

## TOPOGRAPHIC INFORMATION

### USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

### Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

## HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

### State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

## HYDROGEOLOGIC INFORMATION

### AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

### Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

### SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

#### PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

#### USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

### STATE RECORDS

#### Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

#### California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

## OTHER STATE DATABASE INFORMATION

#### California Oil and Gas Well Locations

Source: Department of Conservation

Telephone: 916-323-1779

Oil and Gas well locations in the state.

#### California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

### RADON

#### State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

#### Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

### EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

### OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

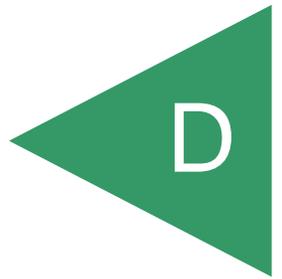

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Geocon Geotechnical & Env were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

### RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

**TARGET PROPERTY: ADDRESS NOT IDENTIFIED IN RESEARCH SOURCE**

The following Target Property addresses were researched for this report, and the addresses were not identified in the research source.

**Address Researched**

11016 Sierra Ave

**Address Not Identified in Research Source**

2014, 2010, 1996, 1995, 1985, 1981, 1980, 1970, 1964, 1961, 1960, 1956, 1951, 1950, 1949, 1946, 1945, 1942, 1941, 1940, 1938, 1936, 1934, 1931, 1930, 1926, 1923, 1922

APPENDIX

## Site Owner Questionnaire

The following questions are for (1) the current owner of the property, (2) any major occupant of the property or, if the property does not have any major occupants, at least 10% of the occupants of the property, and (3) in addition to the current owner and the occupants identified in (2), any occupant likely to be using, treating, generating, storing, or disposing of hazardous substances or petroleum products on or from the property. A major occupant is any occupant using at least 40% of the leasable area of the property or any anchor tenant when the property is a shopping center. In a multi-family property containing both residential and commercial uses, residential occupants do not need to respond to this questionnaire unless they are involved in or have knowledge of the commercial or other uses.

Have you been informed of the current existence of environmental violations with respect to the property or any facility located on the property?  |       | <input checked="" type="radio"/> |                       |                              |                       |                                  |
| 16. Do you have any knowledge of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the property or recommended further assessment of the property?                             |       | <input checked="" type="radio"/> |                       |                              |                       |                                  |
| 17. Do you know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substances or petroleum products involving the property by any owner or occupant of the property?                                      |       | <input checked="" type="radio"/> |                       |                              |                       |                                  |
| * 18a. Does the property discharge wastewater, on or adjacent to the property, other than stormwater, into a stormwater sewer system? <i>septic tanks</i>   |       | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/>        | <input type="radio"/> | <input checked="" type="radio"/> |
| * 18b. Does the property discharge wastewater, on or adjacent to the property, other than stormwater, into a sanitary sewer system? <i>septic tanks</i>   |       | <input type="radio"/>            | <input type="radio"/> | <input type="radio"/>        | <input type="radio"/> | <input checked="" type="radio"/> |
| 19. Have you observed evidence of or do you have any knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the property? |       | <input checked="" type="radio"/> |                       |                              |                       |                                  |
| 20. Is there a transformer, capacitor, or any hydraulic equipment for which there are records indicating the presence of PCBs?  |       | <input checked="" type="radio"/> |                       |                              |                       |                                  |

Unk - "unknown" or "no response"

Additional Questions

A) Describe the current use of the property.

Residential home for my family.

B) How long has the property been used for this purpose?

Always. It was my family's house since 1952.

C) How long have you owned the property?

Close to 20 years. It belonged to my parents before that, since 1952.

D) List the existing structures on the property and their age.

House - almost 70 years old  
Horse barn - approximately 25 years old.

E) Describe the past uses, owners, and operators of the property. (Be as detailed as possible and note approximate time periods.)

My mother/father owned this property before it was mine. Our family has always lived here except for about 5 years when we rented it out in the 1980's.

This questionnaire was completed by:

Name Mary Crull  
Title owner  
Address 11016 Sierra Ave  
Fontana Ca 92337  
Phone number (909) 728-5566  
Date 1/19/2020

## User Questionnaire

1. Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law? *No*
2. Are you aware of any activity and land use limitations, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? *No*
3. Do you have any specialized knowledge related to the property or nearby properties? *None*
4. Does the purchase price reasonably reflect the fair market value of the property? *yes*
5. What is the planned use of the property? *Not aware*
6. Do you know the past uses of the property? *Rental House*
7. Do you know of specific chemicals that are present or once were present at the property? *None*
8. Do you know of spills or other chemical releases that have taken place at the property? *Not aware*
9. Do you know of any environmental cleanups that have taken place at the property? *No*
10. Do you know whether any helpful documents exist and, if so, whether copies can and will be provided for this assessment? These documents may include: Environmental site assessment reports, Environmental compliance audit reports, Environmental permits, Registrations for storage tanks, Registrations for underground injection systems, or any other documents related to the property. *None*

### Site Owner Questionnaire

The following questions are for (1) the current owner of the property, (2) any major occupant of the property or, if the property does not have any major occupants, at least 10% of the occupants of the property, and (3) in addition to the current owner and the occupants identified in (2), any occupant likely to be using, treating, generating, storing, or disposing of hazardous substances or petroleum products on or from the property. A major occupant is any occupant using at least 40% of the leasable area of the property or any anchor tenant when the property is a shopping center. In a multi-family property containing both residential and commercial uses, residential occupants do not need to respond to this questionnaire unless they are involved in or have knowledge of the commercial or other uses.

| 15c. Have you been informed of the past existence of environmental violations with respect to the property or any facility located on the property?   |       | <input checked="" type="radio"/> |                                  |                              |    |     |
| 15d. Have you been informed of the current existence of environmental violations with respect to the property or any facility located on the property?  |       | <input checked="" type="radio"/> |                                  |                              |    |     |
| 16. Do you have any knowledge of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the property or recommended further assessment of the property?                             |       | <input checked="" type="radio"/> |                                  |                              |    |     |
| 17. Do you know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substances or petroleum products involving the property by any owner or occupant of the property?                                      |       | <input checked="" type="radio"/> |                                  |                              |    |     |
| 18a. Does the property discharge wastewater, on or adjacent to the property, other than stormwater, into a stormwater sewer system?   |       | <input checked="" type="radio"/> |                                  |                              |    |     |
| 18b. Does the property discharge wastewater, on or adjacent to the property, other than stormwater, into a sanitary sewer system?   |       | <input checked="" type="radio"/> |                                  |                              |    |     |
| 19. Have you observed evidence of or do you have any knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the property? |       |                                  | <input checked="" type="radio"/> |                              |    |     |
| 20. Is there a transformer, capacitor, or any hydraulic equipment for which there are records indicating the presence of PCBs?  |       |                                  | <input checked="" type="radio"/> |                              |    |     |

Unk – “unknown” or “no response”

Additional Questions

A) Describe the current use of the property.

Two Rental Houses

B) How long has the property been used for this purpose?

When we bought 1989, there were two houses already

C) How long have you owned the property?

March, 1989

D) List the existing structures on the property and their age.

Two Houses Age - unknown

E) Describe the past uses, owners, and operators of the property. (Be as detailed as possible and note approximate time periods.)

We bought as is. We did not build new improvement

### Site Owner Questionnaire

The following questions are for (1) the current owner of the property, (2) any major occupant of the property or, if the property does not have any major occupants, at least 10% of the occupants of the property, and (3) in addition to the current owner and the occupants identified in (2), any occupant likely to be using, treating, generating, storing, or disposing of hazardous substances or petroleum products on or from the property. A major occupant is any occupant using at least 40% of the leasable area of the property or any anchor tenant when the property is a shopping center. In a multi-family property containing both residential and commercial uses, residential occupants do not need to respond to this questionnaire unless they are involved in or have knowledge of the commercial or other uses.

# SIERRA PROJECT — SIERRA AVE.

## Site Owner Questionnaire

The following questions are for (1) the current owner of the property, (2) any major occupant of the property or, if the property does not have any major occupants, at least 10% of the occupants of the property, and (3) in addition to the current owner and the occupants identified in (2), any occupant likely to be using, treating, generating, storing, or disposing of hazardous substances or petroleum products on or from the property. A major occupant is any occupant using at least 40% of the leasable area of the property or any anchor tenant when the property is a shopping center. In a multi-family property containing both residential and commercial uses, residential occupants do not need to respond to this questionnaire unless they are involved in or have knowledge of the commercial or other uses.

| 2a. Have you observed evidence of or do you have any knowledge that the property has been used for an industrial use in the past?  | Yes   | No <input checked="" type="checkbox"/> | Unk | Yes                          | No | Unk |
| 2b. Have you observed evidence of or do you have any knowledge that any adjoining property has been used for an industrial use in the past?  | Yes   | No <input checked="" type="checkbox"/> | Unk | Yes                          | No | Unk |
| 3a. Is the property used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?   | Yes   | No <input checked="" type="checkbox"/> | Unk | Yes                          | No | Unk |
| 3b. Is any adjoining property used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)?   | Yes   | No <input checked="" type="checkbox"/> | Unk | Yes                          | No | Unk |
| 4a. Have you observed evidence of or do you have any knowledge that the property has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)? | Yes   | No <input checked="" type="checkbox"/> | Unk | Yes                          | No | Unk |

| Question   | Owner |    |     | Occupants<br>(if applicable) |    |     |
|--|-------|----|-----|------------------------------|----|-----|
|  | Yes   | No | Unk | Yes                          | No | Unk |
| 4b. Have you observed evidence of or do you have any knowledge that any adjoining property has been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility (if applicable, identify which)? |       | ✓  |     |                              |    |     |
| 5a. Are there currently any damaged or discarded automotive or industrial batteries, pesticides, paints or other chemicals in individual containers of > 5gal (19L) in volume or 50gal (190L) in the aggregate, stored on or used at the property or facility?   |       |    | ✓   |                              |    |     |
| 5b. Have you observed evidence of or do you have any knowledge that there have been previously any damaged or discarded automotive or industrial batteries, pesticides, paints or other chemicals in individual containers of > 5gal (19L) in volume or 50gal (190L) in the aggregate, stored on or used at the property or facility?                                |       |    | ✓   |                              |    |     |
| 6a. Are there currently any industrial drums (typically 55 gal [208L]) or sacks of chemicals located on the property or at the facility?   |       | ✓  |     |                              |    |     |
| 6b. Have you observed evidence of or do you have any knowledge that there have been previously any industrial drums (typically 55 gal [208L]) or sacks of chemicals located on the property or at the facility?  |       | ✓  |     |                              |    |     |
| 7a. Have you observed evidence of or do you have any knowledge that fill dirt has been brought onto the property that originated from a contaminated site?   |       | ✓  |     |                              |    |     |
| 7b. Have you observed evidence of or do you have any knowledge that fill dirt has been brought onto the property that is of an unknown origin?   |       | ✓  |     |                              |    |     |
| 8a. Are there currently any pits, ponds, or lagoons located on the property in connection with waste treatment or waste disposal?  |       | ✓  |     |                              |    |     |
| 8b. Have you observed evidence of or do you have any knowledge that there previously have been any pits, ponds, or lagoons located on the property in connection with waste treatment or waste disposal?   |       | ✓  |     |                              |    |     |
| 9a. Is there currently any stained soil on the property?   |       |    | ✓   |                              |    |     |
| 9b. Have you observed evidence of or do you have any knowledge that there previously has been any stained soil on the property?  |       |    | ✓   |                              |    |     |

| Question  | Owner |    |     | Occupants<br>(if applicable) |    |     |
|---|-------|----|-----|------------------------------|----|-----|
|   | Yes   | No | Unk | Yes                          | No | Unk |
| 10a. Are there currently any registered or unregistered storage tanks (above or underground) located on the property?   |       | ✓  |     |                              |    |     |
| 10b. Have you observed evidence of or do you have any knowledge that there previously have been any registered or unregistered storage tanks (above or underground) located on the property?  |       | ✓  |     |                              |    |     |
| 11a. Are there currently any vent pipe, fill pipes, or access ways indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property?  |       | ✓  |     |                              |    |     |
| 11b. Have you observed evidence of or do you have any knowledge that there previously have been any vent pipe, fill pipes, or access ways indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property? |       | ✓  |     |                              |    |     |
| 12a. Are there currently any flooring, drains, or walls located within the facility that are stained by substances other than water or were emitting foul odors?  |       | ✓  |     |                              |    |     |
| 12b. Have you observed evidence of or do you have any knowledge that there previously have been any flooring, drains, or walls located within the facility that are stained by substances other than water or were emitting foul odors?                           |       | ✓  |     |                              |    |     |
| 13a. If the property is served by a private well or non-public water system, is there evidence of or do you have knowledge that contaminants have been identified in the well or system that exceed guidelines applicable to the water system?                    |       | ✓  |     |                              |    |     |
| 13b. If the property is served by a private well or non-public water system, is there evidence of or do you have knowledge that the well has been designated as contaminated by any government/health agency?   |       | ✓  |     |                              |    |     |
| 14. Do you have any knowledge of environmental liens of governmental notification relating to past or recurrent violations of environmental laws with respect to the property or any facility located on the property?  |       | ✓  |     |                              |    |     |
| 15a. Have you been informed of the past existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?   |       | ✓  |     |                              |    |     |
| 15b. Have you been informed of the current existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?  |       | ✓  |     |                              |    |     |

| Question  | Owner |    |     | Occupants<br>(if applicable) |    |     |
|---|-------|----|-----|------------------------------|----|-----|
|   | Yes   | No | Unk | Yes                          | No | Unk |
| 15c. Have you been informed of the past existence of environmental violations with respect to the property or any facility located on the property?   |       | ✓  |     |                              |    |     |
| 15d. Have you been informed of the current existence of environmental violations with respect to the property or any facility located on the property?  |       | ✓  |     |                              |    |     |
| 16. Do you have any knowledge of any environmental site assessment of the property or facility that indicated the presence of hazardous substances or petroleum products on, or contamination of, the property or recommended further assessment of the property?                             |       | ✓  |     |                              |    |     |
| 17. Do you know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substances or petroleum products involving the property by any owner or occupant of the property?                                      |       | ✓  |     |                              |    |     |
| 18a. Does the property discharge wastewater, on or adjacent to the property, other than stormwater, into a stormwater sewer system?   |       | ✓  |     |                              |    |     |
| 18b. Does the property discharge wastewater, on or adjacent to the property, other than stormwater, into a sanitary sewer system?   |       | ✓  |     |                              |    |     |
| 19. Have you observed evidence of or do you have any knowledge that any hazardous substances or petroleum products, unidentified waste materials, tires, automotive or industrial batteries, or any other waste materials have been dumped above grade, buried and/or burned on the property? |       |    | ✓   |                              |    |     |
| 20. Is there a transformer, capacitor, or any hydraulic equipment for which there are records indicating the presence of PCBs?  |       | ✓  |     |                              |    |     |

Unk – “unknown” or “no response”

Additional Questions

A) Describe the current use of the property.

VACANT LAND - NOT USED EXCEPT TO GROW  
TUMBLEWEEDS

B) How long has the property been used for this purpose?

SINCE ACQUISITION PERHAPS IN LATE 60'S (50'S?)

C) How long have you owned the property?

INHERITED FROM FATHER 2001

D) List the existing structures on the property and their age.

NONE

E) Describe the past uses, owners, and operators of the property. (Be as detailed as possible and note approximate time periods.)

OUR FATHER PURCHASED THE PROPERTY FOR  
INVESTMENT 1 AM GUESSING IN THE 60'S (50'S?)

This questionnaire was completed by:

Name ARTHUR L. KOBAL  
Title CO OWNER  
Address 2491 S ZINNIA WAY, LAKEWOOD, CO 80228  
Phone number 805-427-2212  
Date 1/13/2020

## Site Owner Questionnaire

The following questions are for (1) the current owner of the property, (2) any major occupant of the property or, if the property does not have any major occupants, at least 10% of the occupants of the property, and (3) in addition to the current owner and the occupants identified in (2), any occupant likely to be using, treating, generating, storing, or disposing of hazardous substances or petroleum products on or from the property. A major occupant is any occupant using at least 40% of the leasable area of the property or any anchor tenant when the property is a shopping center. In a multi-family property containing both residential and commercial uses, residential occupants do not need to respond to this questionnaire unless they are involved in or have knowledge of the commercial or other uses.
