Present Land Use/Zoning/General Plan Designation: The project site is currently undeveloped, consisting primarily of non-native vegetation. The project site is situated within the Sand Creek Focus Area of the General Plan. The majority of the site is designated Hillside, Estate and Executive Residential/Open Space by the City's General Plan, while the western portion of the site, alongside Deer Valley Road, is designated Commercial/Open Space. The site is zoned Study District.

Project Description: The proposed project would include development of a single-family residential subdivision with 294 units, as well as recreational amenities and associated improvements. The proposed project would also include future development of an assisted living facility and neighborhood commercial development upon issuance of a Conditional Use Permit (CUP). Development of the single-family residential subdivision, assisted living facility, and neighborhood commercial land uses, including proposed roadways, would total approximately 47.4 acres. The remaining 49.1 acres of the site would be retained as open space. The project would require City approval of a General Plan Amendment, Master Development Plan/Rezone, Development Agreement, Vesting Tentative Map (VTM), and Resource Management Plan.
