Request to expand an existing dairy facility located on two parcels, totaling 32.57± acres, in the General Agriculture (A-2-40) zoning district. Additionally, the applicant proposes to increase support stock numbers by 40 for a total of 80 heifers, 15-24 months old. Proposed construction includes one new 32,480 square-foot animal housing structure within the existing dairy production area boundary. The applicant will also install a new mechanical manure separator, developing a concrete manure drying area at the northwest corner of the project site. The applicant anticipates an increase of 1,303 cubic feet of additional manure per day generated from the proposed herd expansion for a total of 3,183 cubic feet of manure per day.
