Present Land Use/Zoning/General Plan Designation:

Vacant lot / Specific Development No. 84 / Urban Neighborhood

Project Description: *(please use a separate page if necessary)*

The 2017 Santa Ana Water Master Plan (Tetra Tech 2018) water system analysis identified low pressures deficiencies in the northeastern portion of the Low Zone on the south side of Interstate 5 between East 17th Street and East 1st Street. To resolve these low-pressure deficiencies, the City is proposing to install a new water supply well in the vacant lot at 651-657 East Washington Avenue at the northwest corner of East Washington Avenue and Penn Way. The Project includes construction of approximately 140 feet of new pipeline to connect the new well to the existing water supply pipeline in Penn Way. The Project also includes a well pump building, a chemical facility building (for onsite generation of sodium hypochlorite to disinfect well production waters), four material storage bins, an 8-foot tall perimeter block wall, and landscaping

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
