Project Description (Proposed actions, location, and/or consequences).

The project proposes approximately 42,575 square-feet of recreational space that would consist of a new skatepark, new playground, restroom building, raised berm seating, and landscaping. In addition to the recreation area, the project would include a new multi-use public trail along Via Positiva and the western edge of the Kinoshita Farm property that would connect The Farm residential development, currently under construction adjacent to the project site, to the new skatepark and Camino Del Avion. Access to the project site would be provided via gated pedestrian entrances located along the southern and western boundaries of the site. The project would not include parking.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have potentially significant impacts to biological resources, cultural resources, paleontological resources, noise, and tribal cultural resources. However, with implementation of mitigation measures (MM)-BIO-1, MM-CUL-1, MM-CUL-2, MM-GEO-1, and MM-NOI-1, impacts would be less than significant.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
