Present Land Use/Zoning/General Plan Designation:

Transit Village, Industrial Flex, Urban Neighborhood

Project Description: (please use a separate page if necessary)

The proposed project involves the adoption and subsequent implementation of the City of South Gate Gateway District Specific Plan (also referred to hereinafter as the "Specific Plan" or the "Plan"). The Gateway District Specific Plan is a City initiated comprehensive specific plan that is intended to provide a clear development framework for this key area of the City. The Plan would serve as a tool for City staff, decision makers, developers, and property owners to guide development. The Plan encourages desired patterns of activity, land uses, and development types, including Transit-Oriented Development (TOD). The Specific Plan also outlines the regulatory, design, implementation, financing, and infrastructure framework to leverage transit-related investment in the District so as to create a model, mixed-use TOD surrounding the future light rail transit (LRT) station that is proposed within the District. Finally, the Specific Plan implements the City's General Plan vision for the geographic area that is governed by the Plan and relies on the Zoning Code as the key regulatory tool for its implementation. The Plan also relies on additional General Plan goals, policies, plans, and regulations to guide future development.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
