Project Title: Redlands East Valley High School Stadium Project

Lead Agency: Redlands Unified School District

Contact Name: Ken Morse

Email: Ken_Morse@redlands.k12.ca.us Phone Number: (909) 389-2730

Project Location: 31000 East Colton Avenue, San Bernardino County, California
City *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed new football stadium and track and field facilities and associated improvements would replace the existing football field and track facilities. Plans include bleacher seating for 3,000 people, lighting, a home ticket booth and restroom/concession building, and visitor ticket booth and restroom/concession building. The proposed project would also include various improvements to landscaping, new chain-link fencing, access and circulation improvements, and emergency access improvements.

The new stadium would allow Redlands East Valley High School to hold home games and events at its own campus. The high school presently conducts its home games, track meets, and school events at various locations, including Beaumont High School, Yucaipa Community Park, Citrus Valley High School, and Redlands High School. The onsite stadium would eliminate the need to bus event participants, e.g., coaches, athletes, and band members, to home games. The proposed project would also serve as a source of school and community pride by providing the high school with a state-of-the-art facility, while at the same time increasing the quality of the high school's athletic curriculum.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

- Aesthetics: Shield lighting and direct downwards, athletic field lighting to shutoff by or before 10:30 p.m.
- Air Quality: Use of Tier 4 construction equipment, preparation of a dust control plan.
- Noise: Develop and enforce a good-neighbor policy for sports field events, offer homeowner of 10637 Opal Avenue for the installation of upgraded windows.
- Transportation: Provide off-street staging area on the school property.
- Tribal Cultural Resources: Carry out treatment and disposition of inadvertent discoveries (cease construction in immediate vicinity, evaluate find by qualified archaeologist, comply with PRC Section 5097.98 and Health and Safety Code Section 7050.5 if human remains are found, preservation in place).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy known to the Lead Agency at this time.

Provide a list of the responsible or trustee agencies for the project.

- Department of General Services, Division of State Architect
- Santa Ana Regional Water Quality Control Board
- South Coast Air Quality Management District
- San Bernardino County Fire Department
