RE: SCH#2021120002

The California Highway Patrol (CHP) Yuba-Sutter Area was requested to review environmental documents related to a proposed pipeline upgrade project. The primary concern is what impact would it have for vehicular traffic on Scott Forbes Road in Yuba County.

All though the traffic is typically minimal to mostly residents, there could potentially be a strain to traffic on Scott Forbes Road well as other county roads in the area which could lead to an increase in vehicle collisions. As with any possible road closures, there would need to be a plan in place to allow emergency vehicle response to any potential emergency incidents. If you have any questions, please do not hesitate to contact me or Sergeant Craig Howard at (530) 674-5141.

Sincerely,
