Project Description

The California Department of Transportation (Caltrans) proposes to make repairs to Interstate 505 at postmile 0.1 on Interstate 505 in Yolo County. The scope of work includes the following components: remove and replace guardrail, remove and replace dike, excavate and compact sinkhole areas on the embankment. The purpose of this project is to repair the erosion and embankment off of the SB shoulder. The dike that is under the guardrail has lost its capacity and is causing water to overflow and erode the embankment.
