## Notice of Intent to Adopt a Mitigated Negative Declaration for the Proposed Jack Peters Creek Bridge Project

### WHAT IS BEING PLANNED

The California Department of Transportation (Caltrans) proposes to upgrade the bridge railing and widen the structure of Jack Peters Creek Bridge (Bridge No. 10-0150), located between post miles 51.3 and 52.1 on State Route 1 in Mendocino County. The purpose of the project is to bring the bridge up to current design standards, and is needed because the rails have been identified as deficient, and existing shoulder widths do not provide adequate room for disabled vehicles or for collision-avoidance maneuvers, and cannot accommodate bicycle traffic or pedestrians.

### WHAT IS AVAILABLE

Caltrans has prepared an Initial Study (IS) for the Jack Peters Creek Bridge Project, which is now available at
