Present Land Use/Zoning/General Plan Designation:

Open Space/Recreation, Recreation

Project Description: (please use a separate page if necessary)

The Carpinteria Valley Water District proposes to construct and operate three new groundwater monitoring wells to provide groundwater elevation and water quality data from three different water-bearing zones of the western portion of the Carpinteria Groundwater Basin. The three wells would be located about 30 feet apart near the western boundary of El Carro Park. The well casings would be provided with watertight, locking well caps for protection and security. No above-ground structures are proposed. Once constructed, the monitoring wells would become a component of the Carpinteria Groundwater Sustainability Agency's Groundwater Sustainability Plan.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
