Project Description

The proposed project would amend the South Livermore Valley Urban Growth Boundary (UGB) language to allow the extension of sanitary sewer lines to serve residences and wineries located within and near the City of Livermore. The proposed sewer extension would be installed in phases within South Livermore Avenue from approximately 520 feet northwest of Conannon Boulevard to Tesla Road, within Tesla Road from South Livermore Avenue to approximately 3,000 feet east of Greenville Road, within Buena Vista Avenue from East Avenue to Tesla Road, and within Greenville Road from Tesla Road to approximately 5,900 feet south of Tesla Road. The City's 2017 Sewer Master Plan also identifies a Bottleneck Project (BO-CIP-P06) located on East Avenue; the project would require four segments of 12-inch sewer pipes (950 linear feet in total) to be upsized on East Avenue between Maple Street and Buena Vista Avenue. The expanded sewer facilities would allow existing and future wineries, visitors serving uses, and residences to connect to the City's wastewater system in conformance with the Livermore General Plan, South Livermore Valley Specific Plan (SLVSP), and/or South Livermore Valley Area Plan (SLVAP), subject to the provisions of Alameda County Measure D. The project would also allow existing residences on Buena Vista Avenue to connect to the City's wastewater system and cease the use of their on-site septic systems.
