### Present Land Use/Zoning/General Plan Designation:

Sandia Creek Drive box culvert crossing of Santa Margarita River / S80 (Open Space) / Public Agency Land

### Project Description: (please use a separate page if necessary)

The project consists of the removal and replacement of a concrete box culvert crossing over the Santa Margarita River on Sandia Creek Drive. The box culvert crossing, which has created a significant fish passage barrier on the Santa Margarita River, will be removed following construction of a new steel and concrete span bridge. The new bridge will span the river (574 feet in length), with an abutment including wing walls at either end of the bridge and two piers in between and allows the 100-year flood event to pass with one foot of freeboard. The new bridge will be 160 feet downstream of the existing box culvert crossing. The existing crossing will remain open to traffic during construction of the new steel bridge. The project will occur over a period of approximately two years.

Note: The state Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
