

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: City of Rialto 6th Cycle Housing Element Update (2021-2029)

Lead Agency: City of Rialto

Contact Name: Siri Champion, Senior Planner

Email: schampion@rialtoca.gov

Phone Number: (909) 421-8072

Project Location: City of Rialto

*City*

San Bernardino County

*County*

Project Description (Proposed actions, location, and/or consequences).

The proposed City of Rialto 6th Cycle Housing Element Update (HEU) (2021-2029) Project consists of a comprehensive update to the City of Rialto's last adopted Housing Element to establish policies, procedures, and incentives in future land use planning and development activities that result in maintenance and expansion of the housing supply to adequately accommodate the City's anticipated housing needs.

The HEU also addresses existing and projected housing needs through the accommodation of the City's Regional Housing Needs Assessment (RHNA) allocation. To accommodate its RHNA allocation, the City identified 315 housing sites that could accommodate a variety of housing types for all income levels and needs of special population groups. The City does not propose any site development on a candidate housing site/parcel. Potential impacts of the project will be analyzed in compliance with the requirements of the California Environmental Quality Act (CEQA) on a site-specific basis.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The Project will implement Mitigation Measures (MMs) that would minimize or help avoid any impacts to the following resources:

Biological Resources, Cultural Resources, Hazards and Hazardous Materials, and Tribal Cultural Resources.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No areas of controversy noted.

Provide a list of the responsible or trustee agencies for the project.

Trustee Agencies include:

State Lands Commission

University of California

Responsible Agencies include:

California Department of Transportation

Southern California Association of Governments

California Department of Housing and Urban Development

Southern California Air Quality Management District

The Santa Ana Regional Water Quality Control Board

County of San Bernardino
