Subject: SCH2022010271 Draft EIR Submittal Location Correction

On March 3, 2025, Sacramento County submitted a Draft EIR to the Office of Land Use and Climate Innovation for public review. The information submitted in the CEQAnet portal included incorrect information for the APN and 'Other Location Info'.

The APN field should read: 'Various'. The other location information should read: 'The proposed project site is located on various parcels along Scott Road, south of White Rock Road, north of Boys Ranch Road, in the Cosumnes Community of unincorporated Sacramento County.'

This information was also incorrectly noted on the Notice of Availability that was submitted with the Draft EIR. The Notice of Availability has been updated to reflect the correct information, and the dates of the public review period have also been updated to reflect the public review period associated with the revised notice.

No additional changes or updates to submitted documents are necessary.

Sincerely,

Julie Newton, Sacramento County Environmental Coordinator
