Present Land Use/Zoning/General Plan Designation:

Agriculture

Project Description: *(please use a separate page if necessary)*

Reclamation District No. 756 plans to rehabilitate approximately 22,677 linear feet of levee along the South Mokelumne and Mokelumne river corridors on Bouldin Island to sustainably meet DWR Bulletin 192-82 standards. Levee rehabilitation consists of widening and raising the levee crest, armoring the raised portion of the levee crest, flattening the landside levee slope, and placing an all-weather surface on the finished levee crest. Soil fill material may be sourced from within Bouldin Island (on-site borrow) or as import from regional off-site commercial locations. Existing levee encroachments or penetrations such as siphon pipes, drain pipes, and unused structures or remnants of structures may be removed or relocated to facilitate the levee rehabilitation.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
