Present Land Use/Zoning/General Plan Designation:

Land Use Designation: primarily Rural Land (RL) / Zoning: primarily A-2-2 (Heavy Agriculture)

Project Description: (please use a separate page if necessary)

The proposed Project would implement organic waste collection and diversion services and expand recycling services in the Project area. The Project area encompasses approximately 1,419 square miles and comprises the unincorporated communities in northern Los Angeles County. The Project area is divided into four proposed solid waste collection service areas. If the Project is approved, Public Works would issue a solicitation for waste haulers to provide services to the four service areas. Under the proposed franchise contracts, selected solid waste hauler(s) would provide source-separated collection of three waste streams (refuse, recyclables, and organic waste including manure) for all residential and commercial customers. The selected waste hauler(s) would also provide illegal dumping pickup services within the public right-of-way and bulky item pickup upon request. The Project would support the County's compliance with statewide targets set forth in Senate Bill 1383 pertaining to diversion of organic waste from landfills.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
