Project Description (Proposed actions, location, and/or consequences).

The proposed project would construct an approximately 9-acre local park in the community of Spring Valley, located in San Diego County. The present land use is underdeveloped. Implementation of the proposed project would provide new active and passive recreational opportunities for residents of all ages, interests, and abilities. The project would expand recreation resources in the community of Spring Valley and would be operated and maintained by the County of San Diego Department of Parks and Recreation (DPR). The project would construct various components dedicated to different recreational activities, including a play area, off-leash dog zone, baseball field, a basketball court, a dog park, skate elements, a passive recreation area, and other associated amenities, including parking.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project has potentially significant effects on the Biological Resources and Noise with proposed mitigation measures to avoid those effects. Biological Resources mitigation measures include (BIO-1) Nesting Season Avoidance or Pre-construction Survey and (BIO-2) Permanent Impacts to Disturbed Diegan Coastal Sage Scrub. Noise mitigation measure include (NOI-1) Construction Noise Best Management Practices, (NOI-2) Hours of Operations, and (NOI-3) Vibration Best Management Practices.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

The proposed project area has concerns for homelessness. This is being address by a fulltime live-on volunteer, project design, and interjurisdictional communication with the County of San Diego Sherrif's Department.

Provide a list of the responsible or trustee agencies for the project.
