

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Twain Harte Pipeline Improvement Project

Lead Agency: Twain Harte Community Service District

Contact Name: Jeff Black

Email: info@twainhartecsd.com

Phone Number: (209) 586-3172

Project Location: Twain Harte, Tuolumne

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The proposed Project consists of the replacement of existing 4- to 10-inch diameter sewer pipelines, within existing road rights-of-way and utility easements. These areas include the following: adjacent to Twain Harte Lake, two (2) located around Marquis Drive, Twain Harte Drive to Spruce Drive, Fuller to Manzanita Drive, Golf Club Drive (South), Sewer crossing of inlet to Twain Harte Lake, Willowood Drive and Tuolumne Drive and Golf Club Drive. The District is seeking funding through the California's Clean Water State Revolving Fund for the areas listed above. Implementation of the proposed project will allow the District to maintain, replace, and upgrade its sewer collection system so that it can continue to comply with regulations, avoid sanitary sewer overflows into critical waterways, provide provide adequate capacity, and protect groundwater and surface water quality. Construction is expected to take approximately 5 months with construction anticipated to start in Quarter Q2 of 2023 (depending on funding). The construction will require approximately 10 crew members. Construction equipment will include a backhoe, bobcat, trencher, generator, grader, dump truck, concrete truck, and three The depth of ground excavation or trenching will be no more than 6 ft below grade.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

MM BIO-1, MM BIO-2, MM BIO-3, MM BIO-4 and MM BIO-5 would reduce any potentially significant impacts to biological resource to less-than-significant levels. MM-CUL 1, MM CUL-2, MM CUL-3, MM CUL-4, MM CUL-5 and MM CUL-6 would reduce any potentially significant impacts to cultural resource to less-than-significant levels. MM GEO-1 and MM GEO-2 would mitigate any potentially significant impacts to geological resources less than significant. MM NSE-1 would mitigate any potentially significant impacts to noise to less-than-significant levels.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.

Federal Agencies:

U.S. Fish and Wildlife Service

U.S. Environmental Protection Agency

State Agencies:

- California Department of Water Resources
- Central Valley Regional Water Quality Control Board
- California Department of Fish and Wildlife- Region 4
- Native American Heritage Commission

Local Agencies:

- Tuolumne County Air Pollution Control District
- Tuolumne County Community Development Department- Land Use and Natural Resources Division
