

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Anaheim General Plan Focused Update

Lead Agency: City of Anaheim

Contact Name: Nick Taylor

Email: NJTaylor@anaheim.net Phone Number: (714) 765-4323

Project Location: Anaheim Orange  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project is a focused update of the City of Anaheim's adopted General Plan that reflects zoning and land use updates resulting from the 2021-2029 Housing Element, including to address the City's Regional Housing Needs Assessment (RHNA) growth allocation of 17,453 housing units and complete the actions identified by the Center City Corridors Implementation Plan (C3 Plan). The following element updates and related policy changes are included as part of the project:

- Land Use Element Update
- Circulation Element Update
- New Environmental Justice Element
- Zoning Code and Land Use Changes

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Potentially significant impacts include impacts related to: Biological Resources, Cultural Resources, Geology and Soils, and Tribal Cultural Resources. With the implementation of mitigation measures BIO-1 through BIO-6, CUL-1 through CUL-9, and GEO-1, impacts related to Biological Resources, Cultural Resources, Geology and Soils, and Tribal Cultural Resources would be reduced to less than significant levels.

Significant impacts would result related to Air Quality, Greenhouse Gas Emissions, Noise, and Transportation. Even with the implementation of City policies, standard conditions of approval, and all feasible mitigation measures, impacts related to Air Quality, Greenhouse Gas Emissions, Noise, and Transportation would remain significant and unavoidable.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There were no areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.
