

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Bubbling Springs Natural Channel Vegetation Removal Project

Lead Agency: City of Port Hueneme

Contact Name: Charles Cable, Principal Engineer

Email: CCable@ci.port-hueneme.ca.us Phone Number: 805-986-6658

Project Location: Port Hueneme Ventura
City *County*

Project Description (Proposed actions, location, and/or consequences).

The project consists of periodic vegetation removal from the Bubbling Springs Natural Channel's bed and banks for approximately 40 workdays each year. The majority of the vegetation to be removed consists of cattails (*Typha angustifolia* and *T. latifolia*) and bulrush (*Schoenoplectus californicus*) that have grown to heights of 10 feet or more with a density that spans the full width of the channel. Following initial vegetation removal, the City and its labor crews would periodically remove plant material within the bed and banks of the channel, either quarterly, semiannually, or in anticipation of storm events depending on growth patterns of the cattails and bulrush plants. Additional maintenance would be conducted on an as-needed basis to prevent the reestablishment of in-channel vegetation that could affect channel capacity. Vegetation removed from within the channel would be placed in the linear park adjacent to the work area, where it would be allowed to dry in preparation for disposal by a local vendor. Vegetation removal would be conducted with both mechanized and hand equipment. No excavation of channel materials or use of herbicides is proposed. No tree, shrub, or woody vegetation is anticipated to be removed.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

There are no identified significant or potentially significant effects; therefore, no mitigation measures were proposed.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There are no known areas of controversy associated with the proposed project.

Provide a list of the responsible or trustee agencies for the project.
