Project Description:

The California Department of Transportation, using state and federal funding, proposes to reconfigure the existing intersection of State Route (SR) 99 and South Avenue in Tehama County by replacing the existing minor leg stop-controlled only intersection with a roundabout; the limits of work on SR 99 are from post mile 4.2 to 4.8. Other proposed improvements include extension of the box culvert that conveys Hoag Slough under SR 99; installation of a new 45-foot-tall steel truss tower and relocating the existing closed-circuit television from the existing pole to the new tower; and installation of new flashing beacons, road signs, electroliers, storm drains, and biofiltration strips/bioswales. The project would also require the acquisition of new right of way. The purpose of the project is to reduce the frequency and severity of collisions. The project is needed because between January 1, 2012 and December 31, 2017, there were a total of 17 collisions: 11 involved injuries, and 6 were property damage only.
