Project Description (Proposed actions, location, and/or consequences).

The Sutter Extension Water District (SEWD) proposes to sell up to 15,220 acre-feet (AF) of water to the participating member districts of the State Water Project Contractors, Incorporated or other South of Delta purchasers, including on or more Central Valley Project contractors (Buyers) during the 2022 irrigation season. As a willing seller, SEWD would make up to 15,220 AF of water available to Buyers by idling cropland (i.e., non-irrigation of farmland by voluntary participants) and through groundwater substitution (i.e., using groundwater supplies instead of surface water supplies). SEWD's proposed transfer will comply with the current draft Technical Information for Preparing Water Transfer Proposals, dated December 2019 (Draft Technical Information), prepared by the Department of Water Resources (DWR) and U.S. Bureau of Reclamation (Reclamation).

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.
