**ADDRESS** P.O Box 1450, Weaverville, CA 96093 **PHONE** 530-623-6004

---

### PROJECT DESCRIPTION

The Watershed Research and Training Center (WRTC) and Trinity County Resource Conservation District (TCRCD) plan to implement fuels reduction activities in the form of hand thinning and roadside chipping on an approximately 1,733-acre footprint associated with this project along South Fork Road near the community of Salyer in western Trinity County, CA. This project is an integral part of the WRTC and TCRCD's landscape strategy aimed at protecting Trinity County communities from future catastrophic wildfire events and returning the landscape to a healthy, less hazardous state. Fuel Reduction treatments will be strategically implemented along roadsides and adjacent to habitable structures and critical infrastructure to protect the life and property of residents of Salyer and Hawkins Bar as well as to provide safe evacuation routes and ease of firefighter access and suppression efforts. The project area includes portions of many different private landowners within the WUI, and our objective is to treat approximately 1,733 acres over a 3-5 year period. Topography is mostly gentle (15%-45%) throughout much of the project area, with some steeper areas farther from South Fork Road, and elevations range from approximately 800'-2000'.

The prescription includes hand thinning of small diameter (less than 10" DBH) conifers and shrubs that are adjacent to habitable structures, critical infrastructure, and/or roadways and driveways. Emphasis will be placed on eliminating the continuity of surface and ladder fuels. Some sub canopy trees may be removed to break up vertical continuity to dominant trees as well as to raise the canopy base height, which will reduce future fire intensity. Cut materials will be bucked and carried to the chipper whenever feasible and then chipped and broadcasted on site. Any remaining material that cannot be chipped will be lop-and-scattered on site.

---

### EXEMPTION STATUS

- Categorical Exemption Type/Section: Class 4 § 15304  
Minor Alterations to Land
- Statutory Exemption (state code section):
- Ministerial (§21080(b)(1); 15268)
- Declared Emergency (§21080(b)(3); 15269(a))
- Emergency Project (§21080(b)(4); 15269(b)(c))

---

### REASONS PROJECT IS EXEMPT

It has been determined that no exceptions apply which would preclude the use of a Notice of Exemption for this project. This project is consistent with the requirements stated in Section 15304; Minor Alterations to land, and will have no significant environmental impacts to aesthetics, agriculture and forestland/timberland, air quality, biological resources, cultural resources, geology and soils, greenhouse gas emissions, hazards and hazardous materials, hydrology and water quality, land use planning, mineral resources, noise, population and housing, public services, recreation, transportation/traffic, or to utilities and service systems.
