Present Land Use/Zoning/General Plan Designation:

Project Description: (please use a separate page if necessary)

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Notice of Completion, page 2

Project Description (continued):

The project will also include 5,900 lineal feet (LF) of 12" water pipeline, which will connect to the District's existing water distribution system, which feeds reservoirs 2-1 and 2-2 on Sheep Creek Road. The pipeline is anticipated to be 12" diameter in size. The project will include a retention basin, a 10' x 10' chlorination structure, switch gear, and proposed transformer that will connect to an existing power pole opposite the project site along Azalea Road.

The District is also planning to install a second well, Well No. 16, to connect to the District's existing water distribution system. Well No. 16 is proposed to be installed on a 40-acre site the District currently owns along Sheep Creek Road, just north of the intersection of Sheep Creek Road and Cayucos Drive along the western side of the street (APN 3098-071-05). The site would include the following features: a 6" in diameter pipeline connecting to the District's distribution system in Sheep Creek Road; a 4" drain line to the retention basin; a 10' x 10' chlorination building adjacent to the proposed well; and, a 4" conduit, switch gear, and transformer to connect to the existing powerline pole. Construction is anticipated to being in spring of 2022, with the wells becoming operational by the end of 2022.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
