Project Title: Allison/Lockwood Multiuse Pier (Lake Alteration Agreement EPIMS Notification No. PLA-24945-R2)

Project Location: The project is located at Lake Tahoe, in the County of Placer, State of California; Latitude 39.23695, Longitude -120.06359.

Project Description: The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement EPIMS Notification Number PLA-24945-R2, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Austin Allison.

The project is limited to the following activities:

- 1) Placement of a four (4) foot long by three (3) foot wide by three (3) foot deep concrete anchor block to support a steel access stairway on the upper bank of the lake shore.
- 2) Construction of a fifteen (15) foot wide by one hundred twenty-five (125) foot long pier on Lake Tahoe. Twenty (20) circular steel pilings will be driven into the lakebed to support the construction of the pier. The pier will support two (2) thirty (30) foot long by three (3) foot wide adjustable catwalks.
- 3) Driving two (2) H pilings into the lakebed to support a single boatlift to be installed near the pier head.
- 4) Placement of a steel access stairway to allow access to the pier from the upper shore of the lake.
- 5) Enhancement of approximately twenty-seven (27) square feet of native forage fish feed and cover habitat in the vicinity of the pier head.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying out Project: Austin Allison

Exempt Status:

- Categorical Exemption. Type – Class (4, 33); California Code of Regulations, title 14, sections (15304, 5333)

Reasons why project is exempt: Class 4 because the project consists of a minor alteration of land which does not involve the removal of healthy, mature, scenic trees. Class 33 because of the 27 square feet of fish habitat enhancement
