i What are Magnet Programs? ✕

The Los Angeles Unified magnet schools/centers are a voluntary integration program that provide rigorous, high-quality, theme-based instruction designed to facilitate student learning and promote academic achievement. Established in 1977, the magnet programs within our District have been one of the most successful in the nation. Currently, there are 333 magnet programs located throughout the District. The approximate number of seats available in 2024-2025 and the number of applications submitted in 2023-2024 to each magnet school/center can be found under each school's name. All District students, including English learners, standard English learners, students with disabilities, and gifted/talented are encouraged to apply.

Some magnet programs occupy entire school sites (Full School Magnets), while others are magnet centers located on residential school campuses with access to activities and experiences shared with the host school. Please see [Magnet list](#) to review the magnet school/center information in this brochure and to determine the program(s) that fit your child's needs. Each of the magnet programs falls within one of eight instructional themes: Business, Communication Arts, Centers for Enriched Studies, Gifted and Highly Gifted, Liberal Arts, Public Service, Science/Technology/Engineering/Math or Visual and Performing Arts.
