Renewables Portfolio Standard - RPS

Renewables Portfolio Standards Program

The Renewables Portfolio Standard (RPS) is one of California's key programs for advancing renewable energy. The program sets continuously escalating renewable energy procurement requirements for the state's load-serving entities. Generation must be procured from RPS-certified facilities. The California Energy Commission verifies RPS claims.

ANNOUNCEMENTS

The Renewables Portfolio Standard 2022 Annual Reporting deadline has been extended to September 30, 2023.

The [2022 Annual Reporting Instructions for POU's](#) and the [2022 WREGIS Reporting Guidance](#) is available now to assist load-serving entities with annual reporting. All load-serving entities

(LSE), including retail sellers and local publicly owned electric utilities (POU) shall report 2022 retirement of renewable energy credits for California's Renewables Portfolio Standard (RPS) to the California Energy Commission by September 30, 2023.

As specified by the [Renewable Portfolio Standard Eligibility Guidebook, Ninth Edition, \(Revised\)](#) (RPS Eligibility Guidebook), all LSEs are required to track and report RPS procurement using the [Western Renewable Generation Information System](#).

POUs are required to submit 2022 Annual Summary Reports and supporting documentation, including new or revised contracts executed in the prior year, e-Tag Reports, and Hourly Reports through the [RPS Online System](#), by the September 30, 2023 deadline.
