Project Description (Proposed actions, location, and/or consequences).

The GGRP Update is a planning document that seeks to establish strategies for reducing municipal and community-wide GHG emissions consistent with the State's requirement to meet the GHG reduction goals as stipulated in AB 32, SB 32, and Executive Order B-55-18. Additionally, the quantitative efficiency threshold was developed for use in evaluating whether a plan or project's GHG emissions would result in a potentially significant environmental impact under CEQA for plans or projects with pre-2030 build out or initial operation years.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

None

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.
