**Present Land Use/Zoning/General Plan Designation:**

Applicable to all land uses in Burbank

**Project Description:** *(please use a separate page if necessary)*

The GGRP Update is a planning document that seeks to establish strategies for reducing municipal and community-wide GHG emissions consistent with the State's requirement to meet the GHG reduction goals as stipulated in AB 32, SB 32, and Executive Order B-55-18. Additionally, the quantitative efficiency threshold was developed for use in evaluating whether a plan or project's GHG emissions would result in a potentially significant environmental impact under CEQA for plans or projects with pre-2030 build out or initial operation years.

*Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.*

**Reviewing Agencies Checklist**

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X". If you have already sent your document to the agency please denote that with an "S".
