## Project Description

The proposed project includes the implementation of the proposed Oak Hill Apartments Project. The proposed project would develop approximately 6.7 acres of the 8.3-acre project site. The 100 percent affordable housing project would include the construction of two buildings containing up to 250 new apartments. One building would provide 135 dwelling units available to low- to moderate-income educators working in and employees of the County of Marin, and the other building would include 115 dwelling units available to extremely low to low-income residents. The proposed project is not located on property located on any list specified under Govt Code §65962.5.

The two buildings would be terraced up the hillside with exterior elevations ranging from 30 feet to 60 feet in height. The proposed project would incorporate approximately 35,000 square feet of landscaped open space and approximately 35,000 square feet of outdoor amenity space, which would host a variety of passive and active recreational areas for residents including a community terrace, play area, and fenced dog area. Landscaping, grasses, trees, and open greenspace would be featured throughout the project site. The proposed project would include approximately 1,500 linear feet of pedestrian walkways throughout the site.

In addition, each building would also feature private amenity areas. In total, the proposed project would include approximately 10,000 square feet of interior amenity space including a fitness center, community room, and business room/computer lab in each building.

The project site would be accessed via a driveway from East Sir Francis Drake Boulevard, approximately 165 feet east of Drakes Cove Road. A traffic signal on East Sir Francis Drake Boulevard is proposed at the entry to the project site. The driveway would provide access to a four-level garage with approximately 350 parking spaces.

The Draft EIR for the proposed project identified potentially significant impacts for Air Quality; Biological Resources; Cultural Resources and Tribal Cultural Resources; Geology and Soils, as well as Hazards and Hazardous Materials. With mitigation incorporated, the proposed project would result in less than significant impacts.

## Public Hearing

During the 45-day review period, DGS will hold one public hearing to provide additional opportunity for public comment on the Draft EIR for the Oak Hill Apartments Project. The hearing will be held by DGS on Thursday, March 16, 2023 at the following time and place:

San Rafael High School  
185 Mission Avenue,  
San Rafael, CA 94901  
6:00 p.m.–8:00 p.m.

The meeting facilities will be accessible to persons with disabilities. Please contact Rachel Krusenoski via email at [rkrusenoski@fcs-intl.com](mailto:rkrusenoski@fcs-intl.com) if any special accommodations are needed to attend the public hearing. The meeting can also be accessed virtually via Zoom using the link below.
