

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Newberry Wine Creek Quarry Mine Revision

Lead Agency: San Bernardino County

Contact Name: Steven Valdez, Senior Planner

Email: Steven.Valdez@lus.sbcounty.gov Phone Number: 909-601-4743

Project Location: Newberry Springs San Bernardino County
City *County*

Project Description (Proposed actions, location, and/or consequences).

Renew and amend the permits on the vested and established Newberry Wine Rock Quarry.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project is a revision to an approved action. With that said, common species observed during biological surveys included three reptiles, four birds and nine mammal species. Positive evidence of desert tortoise was found at the lower, more level elevations south of the project site (proposed mining area). Therefore, as the project expands the applicant would continue to provide a tortoise proof fencing along the boundaries of the mining sit to reduce any potential impacts. Implementation of BIO-1 reduces this impact.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None

Provide a list of the responsible or trustee agencies for the project.

California Department of Fish and Wildlife
Department of Conservation
Bureau of Land Management
