Project Title: Santa Ana Watershed Weather Modification Project

Project Applicant: Santa Ana Watershed Project Authority

Project Location (include county): Orange, Riverside, and San Bernardino Counties

Project Description:

The Project is a four-year pilot project that would include the installation and operation of 15 ground-based weather modification units throughout the Santa Ana River watershed to increase precipitation in the region. The Project would be operated for four years. Two types of ground-based cloud seeding methods would be used: North American Weather Consultants (NAWC) proprietary automated high output ground seeding (AHOGS) systems and ground-based cloud nuclei generators
