Federal-Aid Project Number: N/A

Project Description

The California Department of Transportation (Caltrans) issued a Director's Order to repair a sinkhole at the eastbound shoulder of State Route 80 near postmile 25.4 in Placer County. Damage assessment concluded there is no culvert nearby. It appears the embankment failed and a break at the dike allow runoff to go over and eroded material out. The void is about 3 feet into the shoulder, averaging 3 feet deep, and approximately 300 feet in length. This problem must be arrested as soon as possible in order to avoid the failure of travel way. This project was needed to avoid failure or threat of failure to the transportation system, which can result in the loss or impairment of life, health, or property.
