655-2705, Contact: Telma B. Moreira (925) 655-2863**Project Description:**

The purpose of this project is to install a permanent 400-square foot modular trailer at 20 Allen Street that will provide additional office space and approximately 2-4 freezers for storing lab samples. The Public Health Lab at the County Hospital is currently overcrowded and does not have enough office and lab equipment space. The new modular trailer will be installed in an existing parking lot; three parking spaces will be removed. The construction process for this project will include removing and replacing approximately 500-700 square feet of asphalt for regrading and compaction, partial removal of an existing concrete retaining wall, providing electrical service to the trailer, installing an emergency backup generator for the trailer, and installing the new modular trailer. Ground disturbance and excavations up to approximately 3 feet are anticipated to make the grades uniform and comply with the Americans with Disabilities Act. Removal of approximately 2 landscape trees is anticipated. If tree removal occurs during nesting bird season, a nesting bird survey will be conducted. Drainage modifications, utility relocation and adjustments, and temporary traffic control may be needed. Appropriate best management practices for stormwater control (i.e. storm drain inlet protection) will be in place. Construction will take approximately 8 weeks to complete.

**Exempt Status:**

- Ministerial Project (Sec. 21080[b][1]; 15268)       Categorical Exemption (Sec. 15303(c) & (e))
