Project Title: DCCE #7771.01 The Larson Family Trust Privat Recreational Floating Dock
(Streambed Alteration Agreement EPIMS Notification No. SAC-25410-R2)

Project Location: The project is located at the Sacramento River in unincorporated Sacramento County, State of California; Latitude 38.700421, Longitude -121.625236; Assessor's Parcel Number 201-0250-009-0000. The project is located at 7115 Garden Highway, Sacramento, CA 95837.

Project Description: The California Department of Fish and Wildlife has executed Streambed Alteration Agreement EPIMS Notification No. SAC-25410-R2, pursuant to Section 1602 of the Fish and Game Code with Grant and Angelina Larson.

The project is limited to the installation of a new private boat dock along the Sacramento River. The private boat dock will be a 27-foot by 42-foot aluminum structure containing a 12-foot by 14-foot boat slip. The dock will be supported by encased foam flotation per current in-water standards. A 4-foot-wide aluminum dock access bridge will be installed to serve as a rigid strut between the dock and a 6-foot by 9-foot concrete landing on the bank of the Sacramento River. The bridge strut will be hinged at each end to adjust for changes in the river levels and will be fitted with encased foam flotation tubs to accommodate flood event flows. Galvanized steel cables, attached to the dock and to two 4-foot by 4-foot Deadman concrete block anchors, will stabilize the dock during flood tide and ebb current flows as well as transfer the lateral forces to the shore.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying out Project: Grant and Angelina Larson

Exempt Status:

Categorical Exemption. Type – Class (4); California Code of Regulations, title 14, section 15304.

Reasons why project is exempt: Class 4 because the project is a private alteration in the condition of land which does not involve the removal any of healthy, mature, or scenic trees.
