Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) proposes to restore the pavement along State Route 33 from Merced Avenue to the Los Gatos Creek South Channel Bridge between post miles 14.7 and 16.7 in the City of Coalinga in Fresno County.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would have no effect on aesthetics, coastal resources, wild and scenic rivers, parks and recreational facilities, forest resources, growth, community character and cohesion, water quality and stormwater runoff, environmental justice, cultural resources, geology and soils, hazardous materials, paleontological resources, hydrology and floodplains, existing and future land use, mineral resources, noise, energy, public services, recreation, tribal cultural resources, invasive species, wildfire, farmland, population and housing, biology, air quality, and traffic and transportation.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

There is no known controversy about this proposed project.

Provide a list of the responsible or trustee agencies for the project.

California Department of Transportation (Caltrans) is the lead agency for CEQA and NEPA for the project.
